H. THOMPSON, for Collector.

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below, to the undermentioned estate situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on Thursday, the 28th June 1888, corresponding with 16th Assar 1259.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1*st*.—The estate to be sold to the highest bidder above the upset price. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in the estate will be transferred to him, subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and the purchaser to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

H. PHILLIPS, Officiating Collector.

NOTICE is hereby given that, under Government orders No. 1250—500L.R., dated the 13th April 1886, the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Furreedpore, will be put up to sale at the Furreedpore Collectorate on Tuesday, the 26th June 1888, corresponding with 13th Ashar 1295 (B.S.), subject to the payment of Government revenue entered in column 5.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1*st*.—The estates to be sold to the highest bidders above the upset price. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them subject to the revenue fixed in perpetuity.

2*nd*.—The sales to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedules of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sales, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale or sales to be cancelled (the sum deposited being forfeited to Government), and the estate or estates to be again put up to sale at the risk of the defaulting purchaser or purchasers, after issue of advertisements as in the case of original sales.

NOTICE.

IT is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution for that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st April 1889, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·5° higher; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

Explanations Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last ten years. The *humidity* of the atmosphere is expressed as percentage, saturated air being represented by 100. Actual sky is denoted by 0 and an overcast sky by 10. The number on the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past 12 stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

for the week ending Friday, the 1st of June 1888

CALCUTTA, *the 1st June* 1888.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 1st OF JUNE 1888.

THE meteorological conditions in Bengal and Assam during the past week call for little detailed comment, and throughout this period weather has been decidedly disturbed. For practically the whole week there has been a distinct tendency to a circulation of winds over Bengal. In Orissa winds have been south-westerly, and in South Bengal south-westerly and southerly, and the velocity of the winds blowing at the head of the Bay has been very large, particularly at the commencement of the week. At the eastern stations winds have been south-easterly, and at the northern stations easterly, while in the west of Behar and in Chutia Nagpur winds have in some cases been north-westerly and westerly. The result of this interaction and of the strong moist winds pouring into the province has been the formation of extremely numerous local storms, generally accompanied by rain, in almost all districts of the province, and thus good general rain has been received. This rainfall, however, cannot be said to have been brought up by the true south-west monsoon current, for this current had not made its appearance over Bengal up to the close of the week.

The meteorological changes taking place in the Bay have again been more important than those over the land area. In the report for the previous week, it was noticed that a second advance of monsoon winds had taken place over the south of the Bay, lasting from the 17th up to the 22nd. Winds then fell off in force at the southern stations, and up to the morning of the 27th they remained of about normal force. From this date, however, an extremely rapid increase took place in the strength of the winds at the Ceylon stations, and exceptionally strong winds were reported from the 28th up to the close of the week. During this period weather must have been more or less stormy generally over the whole of the south of the Bay, but up to the 1st there was no evidence of any distinct storm having formed in front of this inrush of monsoon winds, which on this date had reached well into the middle of the Bay, when it almost appeared as if the advance would continue up the Bay, and bring about the commencement of the true rains in Bengal. The further history of this advance, however, belongs to the meteorology of the succeeding week.

Pressure.—The variations of pressure in Bengal and Assam during the week have been of the ordinary oscillatory character, and taking only those stations into consideration from which reports have been received for a series of years, the mean pressure of the province is found to have been about five-thousandths of an inch only in defect of the normal, while in Assam pressure has been almost absolutely normal. In Bengal the western stations generally have been in defect, while the eastern and south-eastern stations have shown slight excess pressures.

Temperature.—Owing to the numerous local storms with rain which have occurred during the week, temperature has been below the normal in all districts except Chutia Nagpur. The defects have been large in North Bengal, North Behar, and Assam, where they average about 5°, while elsewhere they range from about one and-a half to two and-a-half degrees. In Chutia Nagpur temperature has been slightly above the normal. In Bengal generally the defect has averaged 2·4°.

Rainfall.—All districts have received fairly good general rain. In East and North Bengal the falls have averaged between three and four inches, in Orissa and North Behar they have averaged from two to two and-a-half inches, while in the remaining divisions the falls have ranged from one to one and-a-quarter inches. In all districts except South-West Bengal and Orissa the falls have been in excess of the normal, but in these two districts the falls have been in slight defect.

The following table gives the summary of the temperature and rainfall data of each of he seven meteorological divisions of the Province for the week ending Friday, the 1st of June 1888 :—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h. 10h. 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

DURING the week ending 19th May 1888, the birth and death-rates of the principal Municipalities in Bengal stood at 20·4 and 24·2 per 1,000 of population, respectively, as opposed to 17·7 and 21·1 per 1,000, respectively, in the preceding week ending 12th May, indicating a considerable improvement in the registration of both births and deaths.

2. The highest proportions of births and deaths were returned from the undermentioned Municipalities:—

Births.	Ratio per *mille.*	*Deaths.*	Ratio per *mille.*
Comillah	57·7	Darjiling	58·7
Bhagulpore	43·4	Suburbs of Calcutta ...	42·2
Gya	38·2	Comillah	34·7
Durbhanga	32·2	Gya	34·2
Burdwan	29·0	Chittagong	32·8
		Serampore	31·4

3. The following table denotes that, as compared with the outcome of the preceding week, there was an enhancement of mortality from fever and the maladies returned under the head of "Other causes," particularly from the former, and that the casualties from the rest of the death-causes exhibit only fractional differences:—

	Ratio per *mille* during the weeks ending—

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

Further particulars regarding the position of the wrecks of the Avocet and Teddington.

The following Notice to Mariners, issued by the British Admiralty, London (No. 115 of the year 1888), is re-published with reference to Nos. 51 (1) and 54, dated respectively the 19th August and 15th September 1887, and previous orders on the subject, issued by this Department.

With reference to Notice to Mariners, No. 190 of 1887, on reported sunken rocks northward of Jebel Zukur island :—

Telegraphic information has been received from Lieutenant and Commander T. F. Pullen, H. M's. Surveying Vessel *Stork*, that he has found a small coral patch, with a least depth of 15 feet, situated in lat. 14° 22′ 8″ N., long. 42° 41′ 32″ E.

This is undoubtedly the danger on which the steam vessels *Avocet* and *Teddington* struck during last year. It lies midway between the two best positions, which, from conflicting evidence, could be assigned to the respective vessels when they struck. The depths around the rock are 28 to 30 fathoms.

The *Stork's* search is the fourth that has been made by H. M's. ships before this small danger has been re-discovered.

Vessels passing down the Red Sea should keep to the westward of this rock, and should remember that irregular lateral currents sometimes set across the sea; and if, when on the homeward voyage, they pass eastward of Abu Ail, care should be taken to steer to the westward after rounding that island, until Jebel Zukur summit bears about S.S.E. ½ E.

There is little doubt that the loss of the *Avocet* was due to one of the lateral currents above mentioned, as not only was the steam vessel *St. Oswald* in company with the *Avocet*, also to the eastward of the correct track, but other vessels passed on both sides of the two vessels while stopped to save the crew of the *Avocet*.

Educational Prospectus.

THE Calcutta Medical College Session, 1888-89, will commence on the 23rd June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before that date.

2. Ten free presentations will then be awarded. These are given to students according to their relative position in the University, B.A., B.L., and F.A. Examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled as a matriculated student who has not previously passed the First Arts Examination of the Calcutta University, or a preliminary Arts Examination of the United Kingdom recognised by the British General Medical Council.

4. All matriculated students of the College shall pay Rs. 15 on entrance, Rs. 30 for the summer session on the 23rd June, and Rs. 30 for the winter session on 1st November of each year.

Mahomedan students are required to pay Rs. 15 on entrance and one-third fee, *i.e.*, Rs. 10 per session. The remaining two-third fees are charged to the Moshin Fund.

5. Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following :—

	Rs.
For a single course of lectures on each subject in one year	40
For six months' attendance in each department of hospital practice	60

6. Any matriculated student who leaves the College before completing his University course, with the object of continuing his studies at a Medical School in Europe, may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

7. Any person not being a matriculated student of the College, who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject, on payment, in advance, of fees at the rates fixed in rule 5. If he has passed the Entrance Examination of the University, he shall receive certificates of attendance at lectures. If he has not passed the Entrance Examination he shall receive no class certificates.

8. College scholarships, prizes and certificates of honour are open for competition only to matriculated students of the College, Hospital Apprentice and Female Certificate classes.

9. Junior scholarships of Rs. 8 per mensem and free tuition for one year are annually awarded to 10 students of the 2nd and to 10 of the 3rd year, on the results of the first and second years' Test and Honour Examinations respectively.

10. Ten senior scholarships of Rs. 12 per mensem and free tuition are annually awarded to students of the 4th year on the results on the University First Examination in Medicine. But these shall not be awarded to students who gain Doorga Charan Laha and Female Medical scholarships. These are tenable for two years. Failed students are not eligible for these scholarships.

NOTICE BY THE ACCOUNTANT-GENERAL, BENGAL.

SUPPLY BILLS.

NOTICE is hereby given that supply bills for sums of Rs. 500 and above in even rupees are usually obtainable on the treasuries named below at the rates of premium shewn.

Any person desiring to obtain a supply bill should send to the Bank of Bengal, Calcutta, a written application containing the following information—(1) his own name and address; (2) the name of the person to whom payment is to be made; (3) the treasury on which the bill is to be granted; and (4) the amount for which the bill is to be granted. With this application the cost of the bill (the amount plus the premium) should be paid into the Bank. If payment by telegram is desired (but this is admissible only in cases in which the name of the payee has been previously registered in the Accountant-General's office), the fact should be stated in the application, and an additional rupee paid with the cost.

The Bank of Bengal will, if the amount is available at the treasury named, receive the money tendered, and grant a receipt, returning the application therewith. The receipt and the application should then be sent to the Accountant-General's office, by which the bill will be granted.

The Bank of Bengal will be advised by the Accountant-General on the 1st and 16th of each month of the amounts available at the several treasuries, and will receive the amounts tendered by the first comers till those amounts are exhausted.

If the Bank refuses to receive any sum tendered owing to the amount not being available at the treasury, the application will be retained by the Bank and forwarded by it to the Accountant-General, who will advise the Bank and the applicant if the amount can be made available.

NOTIFICATION.

The 12th June 1888.—The following rules framed by the Magistrate of Jessore, with the approval of the Commissioner of the Presidency Division, under section 15 of the Bengal Ferries Act, I (B.C.) of 1885, have been accepted by the Lieutenant-Governor and are published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

RULES UNDER SECTION 15, ACT I (B.C.) OF 1885, FOR THE DISTRICT OF JESSORE.

Rule 1.—In these rules the term "Magistrate" includes—

(*a*) the District Magistrate of Jessore, and any Magistrate subordinate to him and appointed by him in that behalf;

(*b*) the District Board of Jessore in respect of any public ferry, the management of which has been vested in it under section 35 of Act I (B.C.) of 1885; and any Local Board in the district of Jessore when legally vested with powers in respect of any public ferry by the District Board of Jessore.

Rule 2.—Every public ferry in the district of Jessore shall either be held khas by the Magistrate, or be leased by public auction.

Rules for the management of public ferries held khas.

Rule 3.—For every public ferry which is held khas, the Magistrate shall from time to time—

(*a*) provide such boats, landing-stages, rest-houses, and other appliances as he shall think proper;

(*b*) appoint a suitable person to superintend the plying of the ferry, provide and pay boatmen, receive the authorised tolls, and remit the same to the treasury;

(*c*) fix, with the approval of the Commissioner, the tolls to be levied from persons using the ferry;

(*d*) cause a schedule of such tolls, legibly written in the vernacular, to be fixed up on both landing-stages;

(*e*) determine the maximum number of passengers, animals, carts, vehicles, and goods which each ferry-boat shall carry, and cause a notice to this effect to be affixed to each boat;

(*f*) determine the hours within which the boats shall ply, and the minimum number of journeys to be made every day;

(*g*) provide for the prompt conveyance of the mails at all times across the ferry.

Rule 4.—Any person may compound for tolls payable for the use of the ferry; and if the ferry should be closed before the expiry of the period for which such person has compounded for tolls payable for its use, he shall be entitled to a refund, the amount of which shall bear the same proportion to the whole sum paid by him as the period remaining bears to the whole period for which he compounded. Such refund shall be made under the orders of the Magistrate.

Rules for leasing out ferries.

Rule 5.—When it has been determined to lease the tolls of any public ferry by auction under section 9 of Act I (B.C.) of 1885, the Magistrate shall, at least 15 days before the auction is held, cause an advertisement of such auction to be published, both in English and in the vernacular, in such place and in such manner as to him shall seem expedient.

Rule 6.—The advertisement shall specify—

(*a*) the time and place of the sale;

(*b*) the period for which the ferry is to be leased, and the dates between which the lessee shall be bound to ply the ferry every year;

(*c*) the number and description of the boats to be maintained, the strength of the crew to be employed on each, and the maximum number of passengers, animals, vehicles, and the bulk or weight of goods each is authorised to carry;

(*d*) the liability or otherwise of the lessee to provide the boats and to keep them in repair;

(*e*) the liability or otherwise of the lessee to provide and keep in order the landing-stages and the rest-houses or travellers' sheds, if any, at either or both termini of the crossing;

(*f*) the minimum number of crossings to be made daily at any particular season of the year;

(*g*) the rate of tolls to be levied;

(*h*) the persons and things to be ferried over free of toll as provided in Rule 14;

(*i*) the instalments in which the rent for the ferry is to be paid; and

(*j*) such other particulars as the Magistrate shall consider necessary.

Rule 7.—A copy of the advertisement, and of the Rules and the Form of Agreement required to be executed under section 9 of the Act, shall be posted up in a conspicuous place in the Magistrate's office, and shall be duly notified on the day of the auction.

Rule 8.—On the day of the auction the lessee, to whom the ferry has been knocked down, shall deposit one-fourth of the amount of bid as security for the due fulfilment by him of the conditions of his lease. This deposit may, however, at the discretion of the Magistrate, be dispensed with in the case of small ferries in which boats or canoes are not provided by Government.

Rule 9.—In cases in which the ferry is leased for only a year, or part of a year, the lessee shall be held liable for the rent for the entire period the moment the ferry has been knocked down to him. In cases in which the ferry is leased for a number of years, the liability for each year's rent shall accrue from the first day of the year.

Rule 10.—The contract which the lessee will be required to execute under section 9 of the Act shall be in the form appended to these rules.

Rule 11.—As soon as possible after the contract has been executed by the lessee, the Magistrate shall furnish him, free of charge, with a copy of these rules, a list of the authorised tolls duly signed under section 19 of the Act, and two notice-boards having written on them legibly in the vernacular the schedule of tolls applicable to the ferry, the number of boats which the lessee is bound to keep plying, the number of men by whom each boat is to be manned, and the maximum number of passengers, &c., each boat is allowed to carry. The notice-boards shall be fixed by the lessee in a conspicuous place at both ends of the ferry, and shall be kept by him in a proper condition. On the expiry of his lease they shall be returned by him to the Magistrate.

Rules for the management of ferries leased by public auction and for regulating their traffic.

Rule 12.—The lessee shall be bound to ferry over diligently, carefully, and with the least possible delay, all passengers, vehicles, animals, and goods which may come to the ferry ghât to be ferried over.

Rule 13.—The rate of tolls to be levied shall be those fixed by the Magistrate, with the approval of the Commissioner, under section 18 of the Act.

Rule 14.—The lessee shall not charge or demand tolls for ferrying over—

(*a*) Mails, mail-carts, dâk-runners, and Government telegraph messengers on duty.
(*b*) Commissariat stores, animals, and vehicles, when accompanied by a challan from the Commissariat officer.
(*c*) Military officers, soldiers, and their followers } when travelling on duty with
(*d*) Police and other public officers and process-serving peons } their *bond fide* baggage, horses, palkies, or other conveyances.
(*e*) Executive officers of the District Road Department when travelling on duty.
(*f*) Coolies engaged in repairing roads, with their tools and instruments.
(*g*) Persons carrying dead bodies or property sent in by the police.
(*h*) Prisoners under trial or convicts in the custody of the police.

Rule 15.—The lessee shall not charge or demand tolls from persons who wade or swim across, or take cattle or other animals or property across at their own cost and risk, or from persons who cross themselves, or take other persons across without charge, in their own boats.

Rule 16.—The ferry shall ordinarily ply between sunrise and sunset, or as the Magistrate may direct; but the lessee may employ the boats in ferrying passengers across at any time after sunset, provided each boat so employed carries a light, which must be displayed in a conspicuous part of the boat.

Rule 17.—The Magistrate may, if necessary, fix the times for the crossing of the mails and dâk-runners, and may, as occasion arises, vary such times. He shall in all cases give notice in writing to the lessee of the times at which the mails are to be ferried over, and it shall thereupon become the duty of the lessee to see that arrangements are specially made for the crossing of the mails immediately on their arrival at the ferry ghât, and that no delay is allowed to occur in their transit.

Rule 18.—The lessee shall provide and keep in proper order, to the satisfaction of the Magistrate, the landing-stages on both sides of the ferry, and shall move them when necessary according to the rise and fall of the water. He shall also provide proper rest-houses or travellers' sheds on the banks of the ferry as required by the Magistrate, and shall make all proper arrangements and provide all suitable accommodation on the ferry-boats for passenger and goods traffic.

Rule 19.—The lessee shall mark on each boat the number of passengers, animals, and vehicles, and the bulk and weight of other things it is authorised to carry at a single trip.

Rule 20.—When any ferry which has been leased for a given period is discontinued under the orders of the Magistrate before the expiry of that period, the lessee shall be allowed a deduction in the rent payable for the unexpired portion of the term of the lease. If it be shown to the satisfaction of the Magistrate that the lessee has suffered any loss, consequent on the discontinuance of the ferry, the Magistrate may allow him such compensation as he thinks is deserved.

Rule 21.—In the event of the ferry being discontinued before the expiry of the lease, either by order of the Magistrate or otherwise, all persons who have compounded for the tolls for its use shall be entitled to receive a refund calculated as in Rule 4, and unless the claims of all such persons have been satisfied by the lessee, the Magistrate shall have authority to satisfy the claims out of the deposit made by the lessee under Rule 8.

Rule 22.—The lessee shall, when required by the Magistrate to do so, but not otherwise, furnish all information in his power regarding suspicious persons or classes of persons who may have been, or may come to be, ferried over.

Rule 23.—The lessee shall be bound to furnish such returns of traffic as may from time to time be called for by the Magistrate, and for this purpose he shall keep up a register of traffic in the form to be prescribed by the Magistrate.

Rule 24.—If the lessee desires to establish communication across the ferry by means of a bridge of any kind, he shall first obtain the sanction, in writing, of the Magistrate, and shall, on obtaining such sanction, carry out any orders which the Magistrate may make regarding the opening of such bridge for the through passage of vessels and rafts. Such bridge shall on no account obstruct the free passage of the stream.

Rule 25.—The Magistrate may at any time require the lessee to repair or replace any boat which he considers to be in a dangerous state of disrepair, and the lessee shall thereupon be bound to repair or replace it as directed.

Rule 26.—Police officers will report at once any instance of mismanagement of a public ferry, overcrowding, the insecurity of the boats, landing-stages, slopes or approaches, and any other defect in the working of the ferry, which may come to their notice.

Rule 27.—The ferry boats belonging to any public ferry shall not be plied when the current, wind, or state of the weather is such as to render the crossing unsafe and endanger the lives of the passengers.

Rule 28.—A register in the following form, showing the demand and collection on account of rents payable for tolls of public ferries, shall be kept up by the Magistrate :—

Receipts on account of ferry , farmed by , at an annual rent of Rs.

[*Signature of officer holding sale.*]

Serial number.	Details of payments.	Payment.						
		Amount.	Amount.	Date.	Number of challan.	Initials of Magistrate or Vice-Chairman.	Initials of Treasury Officer.	Remarks.
		Rs.	Rs.					

Rule 29.—A quarterly statement shall also be kept showing the demand, collection and arrears up to date on account of rents for public ferries.

Form of Agreement.

The Secretary of State for India in Council doth hereby lease to me , hereinafter called the lessee, son of resident of mouzah , pergunnah , thana , district ; and I, the said lessee, do hereby take the ease of the public ferry across the river , and situated on the road from to at the rent of Rs. upon and under the following terms and conditions, viz.—

1. I, the lessee, have deposited with the intent that the Magistrate shall hold the same until the determination of the lease, as partial security for the due performance by me of the stipulations herein contained, and for the observance by me of the provisions of the Bengal Ferries Act, I (B.C.) of 1885, and the rules framed under it, and may deduct therefrom any rent which may become due, or penalties which may be awarded under sections 23, 24, and 25 of the said Act.

2. I, the lessee, do hereby acknowledge to have received a copy of the Rules under section 15 of the Act aforesaid, and to be aware of the provisions of section 10 of the Act, under which I am legally bound to conform to them. I also acknowledge to have received a list of the tolls to be levied at the ferry.

3. The lease to me is to be for , namely, from the to the , and during this period I shall be bound to ply the ferry from the to the every year.

4. I hereby agree—

(*a*) (to provide boats for the ferry and) to keep the boats (provided by the Magistrate for the ferry) in proper repair;

(*b*) to employ a crew of men on each boat;

(*c*) to make at least crossings every day;

(*d*) to (provide and) keep in order the landing-stages and the travellers' sheds at either or both banks of the river; and

(*e*) to affix the table of tolls furnished by the Magistrate at some conspicuous place near the ferry.

5. I shall not charge or demand tolls for ferrying over—

(*a*) Mails, mail-carts, dâk-runners and Government telegraph messengers on duty.
(*b*) Commissariat stores, animals and vehicles, when accompanied by a challan from the Commissariat officer.
(*c*) Military officers, soldiers, and their followers } when travelling on duty with
(*d*) Police and other public officers and process-serving peons } their *bonâ fide* baggage, horses, palkies or other conveyances.
(*e*) Executive officers of the District Road Department when travelling on duty.
(*f*) Coolies engaged in repairing roads, with their tools and instruments.
(*g*) Persons carrying dead bodies or property sent in by the police.
(*h*) Persons under trial or convicts under custody of the Police.

6. I shall not charge or demand tolls from persons who wade or swim across, or take cattle or other animals or property across at their own cost and risk, or from persons who cross themselves, or take other persons across without charge, in their own boats.

7. I hereby agree to pay the rent in the following instalments :—

	Rs. A. P.	Date.
1st		
2nd		
3rd		
4th		

But if at any time before the expiry of the period for which the ferry has been leased to me, I be removed therefrom for any breach of the terms and conditions of the lease, or for any wilful breach of any of the rules under section 15 of the Act, I shall be liable to pay rent up to and including the instalment due next after my removal.

8. If the rates of toll are reduced during the currency of my lease, or the exemptions from the payment of it are extended, this agreement is to be modified accordingly. I shall be given a fair opportunity of satisfying the Magistrate as to the effect of the change, and if the terms proposed by him thereafter are not such as I can reasonably accept, I will, according to the law, immediately carry into effect the order reducing the rates of toll, or extending the exemption from payment of it, but will at the same time state the amount of rent I may be willing to pay under the altered circumstances of the case. Should my offer appear to the Magistrate to be inadequate, it shall be competent to him to remove me and place another person in charge of the ferry, and for such time as I remain in charge of the ferry after the issue of the order reducing the rates of tolls, or extending the exemption from payment of it, I shall pay rent only at the rate tendered by me.

9. If I make default in the payment of the rent for the ferry, or of any penalty which may be lawfully imposed, or if I do not observe and perform the covenants herein contained, it shall be lawful for the Magistrate to remove me from the charge of the ferry, and to settle the same with some other person. After such removal, I shall not be entitled to any part of the proceeds of the ferry or to levy any toll therefor. And if the rent on reletting the ferry fall short of the amount at which it was leased to me for the year, and the Government thereby incur loss, I shall be held responsible for such difference or loss, the amount of which may be deducted from my deposit. If the deposit does not cover the loss incurred, the rent due from me, and the amount of tolls refunded by the Magistrate under Rule 21 of the rules under section 15 of the Act, the total amount of which is deficient shall be recoverable in the manner set forth in section 12 of the Act.

10. I will not assign, sublet or part with the possession of the ferry without the previous consent in writing of the Magistrate.

11. I shall not claim any compensation on account of roads being closed for repairs, or on account of inundations, or the breaking down of bridges.

NOTIFICATION.

The 12th June 1888.—The following rules, framed by the Commissioner of the Presidency Division, under section 22 of the Bengal Ferries Act I (B.C.) of 1885, have been accepted by the Lieutenant-Governor, and are published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

RULES UNDER SECTION 22, ACT I (B.C.) OF 1885, FOR THE DISTRICT OF JESSORE.

Rule 1.—All private ferries shall be registered in the office of the Magistrate of the district in which they are situated, and particulars under the following heads shall be entered in the application for registration :—

(*a*). Name of the ferry and names of the villages and thannah in which, and the river across which, it is situated.
(*b*). The number and description of the boats to be maintained, and the strength of the crew to be employed on each.
(*c*). The maximum number of passengers, animals, vehicles, and bulk or weight of goods to be carried by each boat.
(*d*). The periods or season during which the ferry is to be plied every year.

Rule 2.—Before a private ferry is registered, the Magistrate shall satisfy himself that the statements contained in the application are correct.

Rule 3.—If the proprietor of any private ferry shall not apply, as required by Rule 1, for its registration within three months from the publication of these rules, the Magistrate of the district may serve upon him a written notice requiring him to furnish the particulars stated in Rule 1 within a stated period of not less than one month; and any proprietor on whom such a notice has been served in respect of any ferry shall not maintain the same, or allow it to be maintained, after the expiry of the period fixed in such notice, unless the particulars required by Rule 1 shall have been furnished to the Magistrate as ordered.

Rule 4.—The proprietor of every private ferry shall be bound to adhere to the terms of his application, or of any statement furnished by him under Rule 3, and shall not reduce the number of boats or crews to be maintained by him, or allow any of his boats to carry an excess number of passengers, animals, vehicles or weight or bulk of goods.

Rule 5.—The proprietor shall mark on each boat the number of passengers, animals, and vehicles, and the bulk and weight of other things it is authorized to carry at a single trip.

Rule 6.—The ferry shall ordinarily ply between sunrise and sunset, but the proprietor may ply the boats after sunset, provided each boat carries a light, which must be exhibited in a conspicuous part of the boat.

Rule 7.—The ferry shall not ply when the current, wind or state of the weather is such as to render the crossing unsafe, or to endanger the lives of the passengers.

Rule 8.—The Magistrate may direct that any boat used in any private ferry may be examined by such officer as he may depute, and may prohibit the use of such boat if he is satisfied that it is of such a kind, or in such a condition, that its use is dangerous to life or property.

Rule 9.—The owner of every private ferry shall report without delay, at the police-station within whose jurisdiction the ferry is situated, the occurrence of any accident at the ferry resulting in serious injury or in loss of life.

Rule 10.—The Magistrate may require the owner of any private ferry to state the name of any person to whom such ferry may be leased, or who may be placed in charge of such ferry.

Rule 11.—The person in charge of a private ferry, and all persons employed in working a private ferry-boat, shall be responsible that such boat shall not be overladen; and every person having been directed not to enter a fully laden boat, or not to load animals and goods in it, shall be bound to obey such direction.

Rule 12.—The person in charge of a private ferry shall be bound to carefully ferry over with all possible despatch any person, vehicle, animal or goods which may come to the ferry ghât to be ferried over.

NOTIFICATION.

The 12th June 1888.—The following rules, framed by the Magistrate of Nudden with the approval of the Commissioner of the Presidency Division, under section 15 of the Bengal Ferries Act I (B.C.) of 1885, have been accepted by the Lieutenant-Governor, and are published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

RULES UNDER SECTION 15, ACT I (B.C.) OF 1885, FOR THE DISTRICT OF NUDDEA.

Rule 1.—In these rules the term "Magistrate" includes—

(*a*) the District Magistrate of Nuddea and any Magistrate subordinate to him and appointed by him in that behalf;

(*b*) the District Board of Nuddea in respect of any public ferry the management of which has been vested in it under section 35 of Act I (B.C.) of 1885; and any Local Board in the district of Nuddea when legally vested with powers in respect of any public ferry by the District Board of Nuddea.

Rule 2.—Every public ferry in the district of Nuddea shall either be held khas by the Magistrate, or be leased by public auction.

Rules for the management of public ferries held khas.

Rule 3.—For every public ferry which is held khas, the Magistrate shall from time to time—

(*a*) provide such boats, landing-stages, rest-houses, and other appliances as he shall think proper;

(*b*) appoint a suitable person to superintend the plying of the ferry, provide and pay boatmen, receive the authorised tolls, and remit the same to the treasury;

(*c*) fix, with the approval of the Commissioner, the tolls to be levied from persons using the ferry;

(*d*) cause a schedule of such tolls, legibly written in the vernacular, to be fixed up on both landing-stages;

(*e*) determine the maximum number of passengers, animals, carts, vehicles, and goods which each ferry-boat shall carry, and cause a notice to this effect to be affixed to each boat;

(*f*) determine the hours within which the boats shall ply, and the minimum number of journeys to be made every day;

(*g*) provide for the prompt conveyance of the mails at all times across the ferry.

(*h*) allow exemptions mentioned in Rule 14 below.

Rule 4.—Any person may compound for tolls payable for the use of the ferry; and if the ferry should be closed before the expiry of the period for which such person has compounded for tolls payable for its use, he shall be entitled to a refund, the amount of which shall bear the same proportion to the whole sum paid by him as the period remaining bears to the whole period for which he compounded. Such refund shall be made under the orders of the Magistrate.

Rules for leasing out ferries.

Rule 5.—When it has been determined to lease the tolls of any public ferry by auction, under section 9 of Act 1 (B.C.) of 1885, the Magistrate shall, at least 15 days before the auction is held, cause an advertisement of such auction to be published, both in English and in the vernacular, in such place and in such manner as to him shall seem expedient.

Rule 6.—The advertisement shall specify—

(*a*) the time and place of the sale;

(*b*) the period for which the ferry is to be leased, and the dates between which the lessee shall be bound to ply the ferry every year;

(*c*) the number and description of the boats to be maintained, the strength of the crew to be employed on each, and the maximum number of passengers, animals, vehicles, and the bulk or weight of goods each is authorised to carry;

(*d*) the liability or otherwise of the lessee to provide the boats, and to keep them in repair;

(*e*) the liability or otherwise of the lessee to provide and keep in order the landing-stages, and the rest-houses or travellers' sheds, if any, at either or both *termini* of the crossing;

(*f*) the minimum number of crossings to be made daily at any particular season of the year;

(*g*) the rate of tolls to be levied;

(*h*) the persons and things to be ferried over free of toll as provided in Rule 14;

(*i*) the instalments in which the rent for the ferry is to be paid; and

(*j*) such other particulars as the Magistrate shall consider necessary.

Rule 7.—A copy of the advertisement, and of the Rules and the Form of Agreement required to be executed under section 9 of the Act, shall be posted up in a conspicuous place in the Magistrate's office, and shall be duly notified on the day of the auction.

Rule 8.—On the day of the auction the lessee, to whom the ferry has been knocked down, shall deposit one-fourth of the sale-bid as security for the due fulfilment by him of the conditions of his lease. This deposit may, however, at the discretion of the Magistrate, be dispensed with in the case of small ferries in which boats or canoes are not provided by Government.

Rule 9.—In cases in which the ferry is leased for only a year, or part of a year, the lessee shall be held liable for the rent for the entire period the moment the ferry has been knocked down to him, and all the conditions of the agreement referred to in Rule 7 shall apply to him from that time. In cases in which the ferry is leased for a number of years, the liability for each year's rent shall accrue from the first day of the year.

Rule 10.—The contract which the lessee will be required to execute under section 9 of the Act shall be in the form appended to these rules.

Rule 11.—As soon as possible after the contract has been executed by the lessee, the Magistrate shall furnish him, free of charge, with a copy of these rules, a list of the authorised tolls duly signed under section 19 of the Act, and two notice-boards having written on them legibly in the vernacular the schedule of tolls applicable to the ferry, the number of boats which the lessee is bound to keep plying, the number of men by whom each boat is to be manned, and the maximum number of passengers, &c., each boat is allowed to carry. The notice-boards shall be fixed by the lessee in a conspicuous place at both ends of the ferry, and shall be kept by him in a proper condition. On the expiry of his lease they shall be returned by him to the Magistrate.

Rules for the management of ferries leased by public auction and for regulating their traffic.

Rule 12.—The lessee shall be bound to ferry over diligently, carefully, and with the least possible delay, all passengers, vehicles, animals and goods which may come to the ferry ghât to be ferried over.

Rule 13.—The rate of tolls to be levied shall be those fixed by the Magistrate, with the approval of the Commissioner, under section 18 of the Act.

Rule 14.—The lessee shall not charge or demand tolls for ferrying over—

(*a*) Mails, mail-carts, dâk-runners, and Government telegraph messengers on duty.

(*b*) Commissariat stores, animals and vehicles, when accompanied by a challan from the Commissariat officer.

(*c*) Military officers, soldiers, and their followers } when travelling on duty with

(*d*) Police and other public officers and process-serving peons } their *bonâ fide* baggage, horses, palkies or other conveyances.

(*e*) Executive officers of the District Road Department when travelling on duty.
(*f*) Coolies engaged in repairing roads, with their tools and instruments.
(*g*) Persons carrying dead bodies or property sent in by the police.
(*h*) Members of the District and Local Boards travelling on duty connected with their office as District and Local Board Members.

Rule 15.—The lessee shall not charge or demand tolls from persons who wade or swim across, or take cattle or other animals or property across at their own cost and risk, or from persons who cross themselves, or take other persons across without charge in their own boats.

Rule 16.—The ferry shall ordinarily ply between sunrise and sunset; but the lessee may employ the boats in ferrying passengers across at any time after sunset, provided each boat so employed carries a light, which must be displayed in a conspicuous part of the boat.

Rule 17.—The Magistrate may, if necessary, fix the times for the crossing of the mails and dâk-runners, and may, as occasion arises, vary such times. He shall in all such cases give notice in writing to the lessee of the times at which the mails are to be ferried over, and it shall thereupon become the duty of the lessee to see that arrangements are specially made for the crossing of the mails immediately on their arrival at the ferry ghât, and that no delay is allowed to occur in their transit.

Rule 18.—The lessee shall provide and keep in proper order, to the satisfaction of the Magistrate, the landing-stages on both sides of the ferry, and shall move them, when necessary, according to the rise and fall of the water. He shall also provide proper rest-houses or travellers' sheds on the banks of the ferry as required by the Magistrate, and shall make all proper arrangements and provide all suitable accommodation on the ferry-boats for passenger and goods traffic.

Rule 19.—The lessee shall mark on each boat the number of passengers, animals and vehicles, and the bulk and weight of other things it is authorised to carry at a single trip.

Rule 20.—When any ferry which has been leased for a given period is discontinued under the orders of the Magistrate before the expiry of that period, the lessee shall be allowed a deduction in the rent payable for the unexpired portion of the term of the lease. If it be shown to the satisfaction of the Magistrate that the lessee has suffered any loss, consequent on the discontinuance of the ferry, the Magistrate may allow him such compensation as he thinks is deserved.

Rule 21.—In the event of the ferry being discontinued before the expiry of the lease, either by order of the Magistrate or otherwise, all persons who have compounded for the tolls for its use shall be entitled to receive a refund calculated as in Rule 4, and unless the claims of all such persons have been satisfied by the lessee, the Magistrate shall have authority to satisfy the claims out of the deposit made by the lessee under Rule 8.

Rule 22.—The lessee shall, when required by the Magistrate to do so, but not otherwise, furnish all information in his power regarding suspicious persons or classes of persons or property who may have been, or may come to be, ferried over.

Rule 23.—The lessee shall be bound to furnish such returns of traffic as may from time to time be called for by the Magistrate, and for this purpose he shall keep up a register of traffic in the form to be prescribed by the Magistrate.

Rule 24.—If the lessee desires to establish communication across the ferry by means of a bridge of any kind, he shall first obtain the sanction, in writing, of the Magistrate, and shall, on obtaining such sanction, carry out any orders which the Magistrate may make regarding the opening of such bridge for the through passage of vessels and rafts. Such bridge shall on no account obstruct the free passage of the stream.

Rule 25.—The Magistrate may at any time require the lessee to repair or replace within a reasonable time any boat which he considers to be in a dangerous state of disrepair, and the lessee shall thereupon be bound to repair or replace it as directed.

Rule 26.—Police officers will report at once any instance of mismanagement of a public ferry, the insecurity of the boats, landing-stages, slopes or approaches, and any other defect in the working of the ferry, which may come to their notice.

Rule 27.—The ferry-boats belonging to any public ferry shall not be plied when the current, wind, or state of the weather is such as to render the crossing unsafe and endanger the lives of the passengers.

Rule 28.—A register in the following form, showing the demand and collection on account of rents payable for tolls of public ferries, shall be kept up by the Magistrate:—

Receipts on account of ferry , formed by , at an annual rent of Rs.

[*Signature of officer holding sales.*]

Serial number.	Details payments.	Amount.	Payment.					Remarks.
			Amount.	Date.	Number of challan.	Initials of Magistrate or Vice-Chairman.	Initials of Treasury Officer.	
		Rs.	Rs.					

Rule 29.—A quarterly statement shall also be kept showing the demand, collection and arrears up to date on account of rents for public ferries.

Form of Agreement.

The Secretary of State for India in Council doth hereby lease to me , hereinafter called the lessee, son of resident of mouzah , pergunnah , thana district ; and I, the said lessee, do hereby take the lease of the public ferry across the river , and situated on the road from to at the rent of Rs. upon and under the following terms and conditions, viz.—

1. I, the lessee, have deposited with the intent that the Magistrate shall hold the same until the determination of the lease, as partial security for the due performance by me of the stipulations herein contained, and for the observance by me of the provisions of the Bengal Ferries Act I (B.C.) of 1885, and the rules framed under it, and may deduct therefrom any rent which may become due or penalties which may be awarded under sections 23, 24 and 25 of the said Act.

2. I, the lessee, do hereby acknowledge to have received a copy of the Rules under section 15 of the Act aforesaid, and to be aware of the provisions of section 10 of the Act, under which I am legally bound to conform to them. I also acknowledge to have received a list of the tolls to be levied at the ferry.

3. The lease to me is to be for , namely, from the to the , and during this period I shall be bound to ply the ferry from the to the every year.

4. I hereby agree—
   (*a*) (to provide boats for the ferry and) to keep the boats (provided by the Magistrate for the ferry) in proper repair;
   (*b*) to employ a crew of men on each boat;
   (*c*) to make at least crossings every day; and
   (*d*) to (provide and) keep in order the landing-stages and the travellers' sheds at either or both banks of the river.

5. I shall not charge or demand tolls for ferrying over—
   (*a*) Mails, mail-carts, dâk-runners and Government telegraph messengers on duty.
   (*b*) Commissariat stores, animals and vehicles, when accompanied by a chalian from the Commissariat officer.
   (*c*) Military officers, soldiers, and their followers
   (*d*) Police and other public officers and process-serving peons } when travelling on duty with their *bonâ fide* baggage, horses, palkies or other conveyances.
   (*e*) Executive officers of the District Road Department when travelling on duty.
   (*f*) Coolies engaged in repairing roads, with their tools and instruments.
   (*g*) Persons carrying dead bodies or property sent in by the police.
   (*h*) Members of the District and Local Boards travelling on duty connected with their office, as Members of District and Local Boards.

6. I shall not charge or demand tolls from persons who wade or swim across, or take cattle or other animals or property across at their own cost and risk, or from persons who cross themselves, or take other persons across without charge, in their own boats.

7. I hereby agree to pay the rent in the following instalments:—

	Rs.	A.	P.	Date.
1st	...	...		
2nd	...	...		
3rd	...	...		
4th	...	...		

But if at any time before the expiry of the period for which the ferry has been leased to me, I be removed therefrom for any breach of the terms and conditions of the lease, or for any wilful breach of any of the rules under section 15 of the Act, I shall be liable to pay rent up to and including the instalment due next after my removal.

8. If the rates of toll are reduced during the currency of my lease, or the exemptions from the payment of it are extended, this agreement is to be modified accordingly. I shall be given a fair opportunity of satisfying the Magistrate as to the effect of the change, and if the terms proposed by him thereafter are not such as I can reasonably accept, I will, according to the law, immediately carry into effect the order reducing the rates of toll, or extending the exemption from payment of it, but will at the same time state the amount of rent I may be willing to pay under the altered circumstances of the case. Should my offer appear to the Magistrate to be inadequate, it shall be competent to him to remove me and place another person in charge of the ferry, and for such time as I remain in charge of the ferry after the issue of the order reducing the rates of tolls, or extending the exemption from payment of it, I shall pay rent only at the rate tendered by me.

9. If I make default in the payment of the rent for the ferry, or of any penalty which may be lawfully imposed, or if I do not observe and perform the covenants herein contained, it shall be lawful for the Magistrate to remove me from the charge of the ferry,

and to settle the same with some other person. After such removal, I shall not be entitled to any part of the proceeds of the ferry or to levy any toll therefor. And if the rent on reletting the ferry fall short of the amount at which it was leased to me, and the Government thereby incur loss, I shall be held responsible for such difference or loss, the amount of which may be deducted from my deposit. If the deposit does not cover the loss incurred, the rent due from me, and the amount of tolls refunded by the Magistrate under Rule 21 of the rules under section 15 of the Act, the total amount which is deficient shall be recoverable in the manner set forth in section 12 of the Act.

10. I will not assign, sublet or part with the possession of the ferry without the previous consent, in writing, of the Magistrate.

11. I shall not claim any compensation on account of roads being closed for repairs, or on account of inundations, or the breaking down of bridges.

NOTIFICATION.

The 12th June 1888.—The following rules, framed by the Commissioner of the Presidency Division, under section 22 of the Bengal Ferries Act I (B.C.) of 1885, have been accepted by the Lieutenant-Governor, and are published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

RULES UNDER SECTION 22, ACT I (B.C.) OF 1885, FOR THE DISTRICT OF NUDDEA.

Rule 1.—All private ferries shall be registered in the office of the Magistrate of the district in which they are situated, and particulars under the following heads shall be entered in the application for registration :—

(*a*). Name of the ferry and names of the villages and thannah in which, and the river across which, it is situated.

(*b*). The number and description of the boats to be maintained, and the strength of the crew to be employed on each.

(*c*). The maximum number of passengers, animals, vehicles, and bulk or weight of goods to be carried by each boat.

(*d*). The periods or season during which the ferry is to be plied every year.

Rule 2.—Before a private ferry is registered, the Magistrate shall satisfy himself that the statements contained in the application are correct.

Rule 3.—If the proprietor of any private ferry shall not apply, as required by Rule 1, for its registration within three months from the publication of these rules, the Magistrate of the district may serve upon him a written notice requiring him to furnish the particulars stated in Rule 1 within a stated period of not less than one month ; and any proprietor on whom such a notice has been served in respect of any ferry shall not maintain the same, or allow it to be maintained, after the expiry of the period fixed in such notice, unless the particulars required by Rule 1 shall have been furnished to the Magistrate as ordered.

Rule 4.—The proprietor of every private ferry shall be bound to adhere to the terms of his application, or of any statement furnished by him under Rule 3, and shall not reduce the number of boats or crews to be maintained by him, or allow any of his boats to carry an excess number of passengers, animals, vehicles or weight or bulk of goods, except with the permission of the Magistrate.

Rule 5.—The proprietor shall mark on each boat the number of passengers, animals and vehicles, and the bulk and weight of other things it is authorised to carry at a single trip.

Rule 6.—The ferry shall ordinarily ply between sunrise and sunset, but the proprietor may ply the boats after sunset, provided each boat carries a light, which must be exhibited in a conspicuous part of the boat.

Rule 7.—The ferry shall not ply when the current, wind, or state of the weather is such as to render the crossing unsafe, or to endanger the lives of the passengers.

Rule 8.—The Magistrate may direct that any boat used in any private ferry may be examined by such officer as he may depute, and may prohibit the use of such boat if he is satisfied that it is of such a kind, or in such a condition, that its use is dangerous to life or property.

Rule 9.—The owner of every private ferry shall report without delay, at the police-station within whose jurisdiction the ferry is situated, the occurrence of any accident at the ferry resulting in serious injury or in loss of life.

Rule 10.—The Magistrate may require the owner of any private ferry to state the name of any person to whom such ferry may be leased, or who may be placed in charge of such ferry.

Rule 11.—The person in charge of a private ferry, and all persons employed in working a private ferry-boat, shall be responsible that such boat shall not be overladen; and every person having been directed not to enter a fully-laden boat, or not to load animals and goods in it, shall be bound to obey such direction.

Rule 12.—The Magistrate of the district may delegate his duties and powers under these rules to Sub-divisional Magistrates, and may authorize them to transact all business connected with private ferries.

PUBLIC WORKS DEPARTMENT—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 180.

The 2nd June 1888.

THE subjoined accounts and reports of the Road Cess Committees of the districts of Monghyr, Bhagulpore, Purneah, Maldah and Sonthal Pergunnahs, for the half-year ending the 31st March 1887, together with the remarks thereon of the Commissioner of the Bhagulpore Division, are published for general information.

W. B. BESTIC,

Under-Secretary to the Govt of Bengal.

No. 97, dated Monghyr, the 12th July 1887.

From—HERBERT MOSLEY, Esq., C.S., Chairman, District Board, Monghyr,
To—The Commissioner of the Bhagulpore Division.

IN compliance with Government Circular No. 6, dated 29th March 1887, I have the honour to submit account and report of the road cess operation in this district during the half-year ending 31st March 1887.

* * * * * * * *

Five meetings were held during the half-year, all of which were attended by sufficient number of members to form a quorum. The attendance of the members on the whole was fair.

As regards the meetings of the Branch Committee, I have to note that no meeting was held in Jamui during the six months which this report appertains. No explanation is forthcoming, the then Sub-divisional Officer being away on leave, but it is conjectured that the failure was due to the illness and mental anxiety the Sub-divisional Officer laboured under.

Two meetings were held in the Begoosarai sub-division, and the attendance of the members was fair. It is reported that the European member could not attend these meetings, for their residence being long distance off from the head-quarters, but most of them have rendered great assistance by undertaking repairs of several district and branch roads.

Separate report has been submitted by the Collector regarding the cess collection. The result was good, the percentage having amounted to 82.

Necessary repairs were carried out to most of the roads and bridges The roads were maintained in tolerable order, so as to enable the passing of wheeled conveyance during the touring season.

The following is a list of the new works:—

1. Raising and providing waterway on the Jamui to Mullehpur road.
2. Bridging Bucktearpur to Bulhi road.
3. Constructing Khagria to Gogri road.
4. Ditto Koperia to Sonbarsa road.
5. Metalling a portion of Sultangunge road.
6. Converting Tirhoot road into a permanent embankment.
7. Metalling Persanda to Gidhour road.
8. Constructing Jamui to Betya road.
9. Demarcating road lands—

Luckheserai to Sikandra road.	Bhagalpur road.
Patna road.	Sultangunge road.
Kujrah road.	Khagria to Gogri road.
Kharuckpore road.	Bucktiarpur to Bulhi road.

10. Constructing inspection bungalows at Betya, Billow, and Munsee.

Almost all of the abovementioned works were in progress from the previous years, consequently they do not call for any special mention, most of them having been noticed in the previous reports.

Tree-planting on certain roads is still continued under contract system wherein contracts exist, but no new contract has been let out for this purpose. Two years' extension has been granted to the contractors, whose terms of contract have expired on the 30th September last. Other roads are being planted departmentally, the contract system being objectionable. The following figures show the number of trees maintained by the contractors as also those maintained by the Department:—

Trees maintained by contractors—

Monghyr to Burhya road	...	...	...	729
Sultangunge to Belhar	...	...	...	1,910
Ganges ghât to Rasidpur	...	...	...	7,468
		Total	...	10,107

Trees maintained by Department—

Jamui sub-division	...	...	...	4,681
Sheikpura ditto	...	...	...	396
Sudder ditto	...	...	...	4,214
Begooserai ditto	...	...	...	300
		Total	...	9,591

The accounts have been audited as usual, monthly, by the Standing Audit Sub-Committee. No inspection has been made by the Local Examiner or by his Assistants during the period under report.

The state of the communications, as far as I have seen, was fair. The roads were tolerably well maintained and kept in passable order. I did not approve altogether of the system on which the repairs of roads are carried out in this district. The kutcha roads were kept flat instead of with a gentle rise in the centre, and were never properly rammed and rolled when the earth was damp.

Liberal grants were made to the Branch Committees, and necessary repairs have been carried out to the village roads.

The working of the establishment of the Road Cess Committee in its several branches has been generally good.

C. MURRAY, *Major-General*,
Vice-Chairman, District Board.

HERBERT MOSLEY,
Chairman, District Board.

No. 162½, dated Bhagulpore, the 11th July 1887.

From—A. A. WACE, ESQ., C S., Magistrate and Chairman, Road Cess Committee, Bhagulpore,

To—The Commissioner of the Bhagulpore Division and Sonthal Pergunnahs.

WITH reference to your No. 43P.W. of the 25th May 1887, I have the honour to submit the District Road Fund Report for the six months, from 1st October 1886 to the 31st March 1887.

2. The beginning of the year is always largely taken up in making arrangements for works, collection of materials, manufacture of bricks, &c., and in surface repairs to roads. The Committee therefore have very little to lay out. Contractors are paid generally after March. Hence the expenditure shown in the accounts is low in proportion to the budget allotment under head Original Works and Repairs.

3. *Original Works.*—The works under this head have got fairly forward, excepting the erection of boundary pillars and demarcation of road lands, which is standing over for permission from zemindars to take possession of lands. In South Bhagulpore the Ghogha-Bousee road is still the most important job in hand under this head.

In North Bhagulpore the Committee directed their attention to bridging on the Peepra-Singhessur road, which will be an important feeder to the Tirhoot State Railway when extended further eastwards. The contractor, however, has been very slow in making bricks. Money has also been spent through the Durbhunga Road Cess Committee on a feeder to the Nirmali station on this railway line. Two new bungalows have been under construction in South Bhagulpore. A bridge has been under re-construction on the Doomka road.

4. *Arboriculture.*—During the period under report 745 trees were planted out on 6½ mile of roads. From the beginning of the operation up to date, 10,080 trees have been planted out and maintained on six roads. The Branch Road Committees have maintained trees and planted on sides of five roads.

5. *Repairs.*—First surface repairs to roads were done, and they have been kept in drivable condition. Earthwork, wherever required, is in progress. For pucca roads metal has been collected, and 88,985 cubic feet of metalling, which was collected last year, has been laid down in renewal coats of road No. 1, Bhagulpore to Sonthal Pergunnahs. Twenty-five per cent. of the allotment under the head has been spent.

6. *To be done next year.*—The projects that have been in progress during the half-year will be carried on. Whether any other work will be originated must depend on the funds placed at the disposal of the District Board in the orders on the budget already submitted.

7. *Road Cess Act.*—The Road Cess Act has worked fairly. The certificate procedure is cumbrous for the many very petty demands. The estimated annual receipts of provincial rates, "cess on land," is Rs. 1,34,800, of which Rs. 96,169 was due in the December and March kists, including arrears (Rs. 20,073). The actual collections during the six months came to Rs. 84,648-9-2, including arrears (Rs. 12,495). The percentage of collection is Rs. 88, which is a slight improvement on that of the same period of 1885-86; and the improvement has been far more marked in respect of arrears, being 62·3 against 47 8 in the previous year.

8. *Committees.*— * * * In Banka and Soopool the attendance has improved, and I attribute the slight falling off as regards the District Committee to the knowledge that it was doomed to give way to the District Board.

9. A Sub-Committee of the District Road Cess is charged with preparing budget estimates, auditing accounts, accepting tenders for works, &c. It meets once every month. It was dissolved on the introduction of the Local Self-Government Act on 1st April, and the District Board not having been yet constituted, I have been unable to submit the annual accounts to the usual scrutiny.

10. *Village Roads and Branch Road Committees.*—The following is a statement of budget allotments and expenditure incurred for the improvement of village communications by the Branch Road Committees, viz. :—

	Allotment.	Expenditure.
	Rs.	Rs.
Head-quarters	3 920	2,003
Banka	2,804	285
Mudhepoorah	2.792	810
Soopool	4 304	1,178
Total ...	13 820	4,226

In North Bhagulpore much of the kutcha road work has always to be done in the rains: but in Banka cold weather repairs stand better, and I have called for an explanation of the very small expenditure.

11. *Establishment.*—There was no change in the engineering establishment during the year under report.

12. *Accounts.*—Book and accounts have been kept properly. They were inspected by the Local Auditor in January last, and he had very little to criticise.

13. The accounts for the period herewith submitted include the adjustments made on the 1st April 1887, as per Accountant-General's No. 971 L.F., dated the 25th March 1887.

No. 67, dated Purneah, the 11th June 1887.

From— H. G. COOKE, Esq., Chairman, District Road Cess Committee, Purneah,

To—The Commissioner of the Bhagulpore Division.

IN accordance with the instructions contained in the Government's letter No. 2384 of the 21st ultimo, conveyed in your No. 43P.W. of the 25th idem, to the address of the Collector of Purneah, I have the honor to submit a report on the working of the Road Cess Committee for the half-year ending 31st March 1887.

* * *

There was no change in the *personnel* of the Committee during the half-year.

There were four meetings held, and the average attendance of members was fair, being 5 5.

All the members took great interest in the Road Cess affairs, and displayed independence in discussing matters which came before them.

No meeting had to be postponed for want of a quorum, except one at Kissengunge.

All the planters helped the Committee by looking after the village roads and repairing them, and five of them, including the Vice-Chairman, helped the Committee by auditing the monthly accounts.

Working of the Act and the feelings of the people.—The Act worked smoothly throughout the year, and the tax was paid without any murmur.

Working of the Committee.—During the half-year under report, 320 miles of II class, 59 of III class, and 122 of IV class roads were surface repaired. Eighteen bridges also were repaired.

The unusual rains of July and August last greatly damaged many roads and destroyed many bridges. Those roads have been repaired, and the renewal of bridges is in progress.

Some of the roads are badly in want of bridges, and I have allotted a large sum of money for construction of bridges during the current year, estimates for which are under preparation, and some have already been submitted for sanction.

The inspection bungalows on the district roads were kept in repair.

Many village roads in the sudder sub-division and few in the Arrareah and Kissengunge sub-divisions have been repaired. The major part of the amount allotted for village roads has been advanced to gentlemen for repairs of those roads, but some of them have submitted their accounts, but many have not; hence the progress under this head cannot be ascertained, but I presume that most of those roads have been repaired and their accounts are awaited.

Arboriculture.—The operation under this head was confined to the maintenance of 3,226 trees. No new trees were planted during the half-year.

Inspection of district works by the Divisional Superintendent.—Some district works were examined during the half-year by the Divisional Superintendent in December 1886.

Inspection of accounts by the Examiner of Local Accounts, Bengal.—The offices were examined during the half-year in January 1887.

How the different establishments worked during the half-year.—The Accountant attached to the Committee's office has given entire satisfaction.

Mr. R. G. S. Roberts continues to be the District Engineer, is an active officer, and gets about the district a great deal: he possesses a thorough knowledge of the district.

PURNEAH, *The October* 1887.

BHOBOTOSH BANERJEE,
Vice-Chairman, District Board.

No. 162, dated Maldah, the 10th September 1887.

From—H. G. SHARP, Esq., Chairman, District Board, Maldah,
To—The Commissioner of the Bhagulpore Division.

WITH reference to your endorsement No. 43P.W., dated 25th May last, I have the honour to submit the half-yearly accounts of receipts and expenditure and the administration report of the road cess operations in this district during the half-year ending 31st March last. The accounts were examined and certified by the Sub-Committee of Audit appointed under section 174, Act IX (B.C.) of 1880.

2. Five meetings of the Committee were held during the half-year, of which three were presided over by the Chairman, and the rest by the Vice-Chairman. The regular notice was given before every meeting, and no business was transacted in the absence of a quorum. The proceedings of the Committee were duly recorded in the minute-book, and the orders passed thereon have been carried out. * * * Mr. L. Hare was Chairman from 1st October to 24th November, and myself for the remainder of the half-year.

3. The monthly accounts of the Road Fund offices were examined and audited by a Standing Sub-Committee of Finance, consisting of four members, of whom one was the Vice-Chairman of the Committee.

4. Mr. J. Fraser-Forbes and Mr. George Hennessy, members of the Committee, have assisted in superintending and executing repairs to some of the roads in their neighbourhoods.

5. *Demand, collection, remission, and balance of road cess.*—The arrears of road cess outstanding at the close of the cess year ending on the 30th September 1886 were Rs. 3,373. The addition of Rs. 14,433, the demand for the half-year under review, made the gross demand Rs. 17,806. Of this sum, Rs. 13,333 (exclusive of the amount collected in advance during previous years, but inclusive of the amount collected in advance during the half-year) was collected within the period, and Rs. 12 was remitted, leaving an outstanding balance of Rs. 4,461, or 25 per cent. on the gross demand. The percentage of the total collections, Rs. 13,333 on the current demand, Rs. 14,433, was Rs. 92·3.

6. *Certificate Procedure.*—The number of certificates filed during the half year was 355, and 231 were pending at the close of the year ending on 30th September 1886. Of this total of 586 certificates, on 359 the cesses have been fully realized, leaving 227 pending at the close of the half-year. A full report on these operations was submitted in my letter No. 99C (on the revenue side) dated 30th June 1887.

7. The working establishment entertained during the period consisted of—

1 District Engineer.	2 Sub-Overseers.
1 Overseer.	1 Clerk, and
	1 Store-Keeper.

An additional sub-overseer is needed as mentioned in previous reports, for the newly made sub-division at Pakuahat, but owing to want of funds could not be employed during the half-year.

8. The working sub-divisions, as in the preceding year, were four in number viz.—

North Maldah,	Chanchal and
South Maldah,	Pakuahat.

As the additional sub-overseer referred to in paragraph 7 was not employed, the Sub-Overseer, Baboo Kunja Behari Kar, in Charge of the South Maldah sub-division, held charge also of the Pakuahat sub-division.

9. The progress of works during the half-year appears to have been considered by the Divisional Superintendent, judging from reports only, as generally satisfactory; but the District Engineer's own work, in dispatch and supervision, was held in several matters, both by Mr. Hare and by myself, to have fallen very short of the proper standard. Much of the work was very badly done, and at extremely inconvenient times. Some of the roads, for instance, were first repaired in March, a few even in April (after the end of the half-year) towards the close of the season when they were most needed for traffic, and shortly before the rains would begin to destroy all the good done. A few roads were on the other hand begun in good time, and kept in very fair order during most of last cold weather, but the District Engineer is not up to managing nearly all that he has to do, and he is especially backward in travelling over the distant parts of the district. He is apt to go again and again over roads near head-quarters, and to leave others to sub-overseers. The matter will shortly be discussed by the District Board. Of the subordinate establishment, Overseer Babu Nilmoni Koar did well; but the two sub-overseers, Babus Kunja Behari Kar and Raj-Coomar Ganguly failed to give satisfaction.

10. *Flood damages.*—The damages caused on the embanked roads by the excessive flood of September 1886, were mostly repaired during the half-year.

11. *Length of Communications.*—There are 92 land and 13 river communications, aggregating 951 miles in length, all of which, except 38 miles, were under the District Engineer. The 38 miles are under the members named in paragraph four.

12. Difficulty in getting sufficient labourers and piece-workers for road-work was felt as in the preceding years. In the Barindra the people were so well off after the bumper harvest of December last, that the local labourers would not take up road-work though higher wages were offered.

13. *Original works.*—No original works of importance were taken up during the half-year.

14. *Repairs.*—The first class road from Ghorapir to Neemaserai, about 1½ miles long, was kept in good order.

15. *2nd class Roads.—English bazar to Nowabgunge.*—This road, about 34 miles in length, was seriously breached during the flood of September 1886. The breaches were repaired, and the road was made driveable early in the cold weather. The repairs to the metalled portions, damaged by the flood, were kept in abeyance till the metal was manufactured (since completed), and till the beginning of the rains, as the proper season for metalling.

English Bazar to Rajmehal.—This road, which also suffered severely from the flood, was repaired at the beginning of the cold weather, and made driveable by December. To facilitate traffic, a tâl bridge was made over a deep channel across the road near Manik-Chuck, besides general repairs. The diversion proposed near Inayatpur could not be completed, pending the settlement of the question of land required for the purpose.

Besides the above, there were 166 miles of roads of this class, some of which were put and kept in order during the half-year, and others remained in an extremely bad state.

16. *3rd class Roads.*—These roads, measuring about 9½ miles, received surface repairs. The last remarks apply to these also.

17. *4th class Roads*—The District Engineer reports—

"All these roads were rendered fit for cart traffic after the subsidence of flood by surface dressing and petty fillings, and were kept fit for the above purpose throughout the half-year." But from what I saw on tour of several other roads which he described as being in good order (though during the whole of the working season he never went to see them), it is very doubtful whether some of these too were not far worse than here described.

18. *Village Roads.*—One village road, not in the list, about two miles long, was put in order.

19. *Arboriculture.*—No allotment for planting new trees on road sides was made by the Committee in their budget for 1886-87, and all that could be done was to keep up the trees, 2,226 in number, planted in previous years.

20. No allotment was made in the budget for the removal of snags from the rivers, and no work could be done in this direction.

No. 99PW, dated Dumka, the 29th June 1887.

From—R. CARSTAIRS Esq,. C. S. Offg. Deputy Commissioner, Sonthal Pergunnahs,

To—The Commissioner of the Bhagulpore Division.

WITH reference to your No. 50P.W. of the 13th instant, I have the honour to submit a report on road works in this district for the half-year ending on the 31st March last.

Original works:—The big bund across Nunhochi stream in mile 19, road No. 2, taken in hand last road year, has been widened to 20 feet, and some minor improving works done to it during the half-year under notice. The parapets and pointing to the bridge undertaken last year on the 57th mile, Bhagulpore and Sury road, have been too completed. The following are the original works provided for in the current year's Budget that have been taken in hand during the half-year under report:—

(1). Bunding up Ranibohal stream, 86 mile, road No. 1 (Bhagulpore and Sury road), and providing escape bridges and channels at both ends.

(2.) Constructing a stone causeway about 130 feet long across Bilkee stream, 89 miles, Bhagulpore and Sury road.

(3). Bunding up Masaujore stream, 83 miles, Bhagulpore and Sury road, and providing escape bridges and channels at both ends.

(4). Constructing a bund across Huripur nala, 28 miles, road No. 2 (Dumka and Rampur-Hat) which is a considerable stream, with escape bridges and channels at both ends.

(5). Dismantling a timber bridge over Jamunajore stream, 1st mile, Deoghur and Sarath road, and replacing it by a masonry arched bridge of 4 spans of 15 feet each.

The last work has been completed at the end of the half-year under notice. The other four works are now nearing completion, their progress during the half-year has been satisfactory. By the completion of some of the works mentioned above, the Sury and Dumka

section of the road No. 1 will be wholly bridged. It traverses in all eight streams, including the river More, and I am glad to say that with the very limited money at our disposal, seven of them could be bridged over by means of bunds, causeways and masonry bridges, and thus avoiding the once difficult and dangerous fordings. Our resources, however, are too small to admit attempting erection of a bridge over the river More, measuring over a quarter of a mile in length or even of a causeway across it.

Repair works :—We have kept in good repairs all the roads borne in the district statement of roads. Some of them have been improved in the half-year under notice. During this half-year too we have done some works in the construction of three new roads mentioned below :—

1. Palojuri, 15th mile, road No. 20, to Sarath.
2. Surichua, 32nd mile, road No. 2, to Mulhoti.
3. Tiupahar Railway Station to Taljhari.

Adequate attention has been paid towards maintenance of the three village roads in the district. Kumirabad road, No. 19, has been repaired by the Belpata zemindar. In the Damin we did some works on the new road leading from Amrapara to Pakour, 22 miles long, taken in hand last year, from G. E. I. Fund.

Staging and Inspection Bungalows :—Only some petty and patch repairs have been done to them during the half-year. They are in fair order and quite habitable.

Arboriculture :—We have got a large number of road-side trees, mostly mangoe, amounting over 26,000. They have been all very carefuly tended, and are thriving satisfactorily, many of them blossomed during the year.

No. 88PW, dated Bhagulpore, the 10th October 1887.

From—JOHN BEAMES, ESQ., Commissioner of the Bhagulpore Division and Sonthal Perguunahs,

To—The Secretary to the Government of Bengal in the Public Works Department.

I HAVE the honour to submit the reports and accounts of the road cess operations of the several districts in this division for the half-year ending the 31st March 1887.

2. *Cess collections.*—The percentage of cess collections is given below :—

Monghyr	...	...	...	...	...	82·00
Bhagulpore	...	...	...	.	...	88·00
Purneah	...	...	...	...	...	92·42
Maldah	...	...	...	...	...	92·30

3. *Working of the Act.*—The Act has been reported to work satisfactorily, and the people in general appreciate the roads, especially the village ones constructed under the provisions of the Act.

4. *Attendance at meetings of District Road Committees.*—The number of meetings held by each District Road Committee is given below, together with the average attendance :—

NAMES OF DISTRICTS.	Number of meetings held.	Number of members.	Average number attending each meeting.	Number who did not attend any meeting.
Monghyr	5	17	6·6	5
Bhagulpore	5	17	6·8	2
Purneah	4	14	5·5	4
Maldah	5	13	5·8	4

5. *Branch Committees, Monghyr.*—The attendance of the members of the Branch Committee at Beguserai was fair. None of the European members attended the meetings during the half-year under review owing to the distance of their residences from head-quarters; but they rendered great assistance by looking after the repairs of the village roads. No meetings were held at Jamui, and no explanation has been given.

Branch Committees, Bhagulpore.—There was an improvement in the attendance of the members of the Branch Road Committees at Banka and Supul. The attendance at the other Branch Committees was fair.

Branch Committees, Purneah.—The average attendance at the Branch Committees at head-quarters and Arrareah is said to have been fair; one meeting had to be postponed at Kissengunge for want of a quorum. All the members, as well as the planters, are reported to have taken great interest in the road cess affairs by undertaking the repairs of village roads.

Branch Committees, Maldah.—There are no Branch Committees in this district, but Messrs. Forbes and Hennessy, members of the District Committee, undertook the repairs of some of the roads in the neighbourhood of their factories.

6. *Original Works and Repairs, Monghyr.*—The following works were in progress, most of them from previous years :—

(1) Raising and providing water-way on the Jamui-Mullehpura road.
(2) Bridging the Buktearpur-Bulhi road.
(3) Construction of the Khagaria-Gogri road.
(4) Construction of the Koperia-Sonbursa road.
(5) Metalling of a portion of the Sultangunge road.
(6) Converting the Tirhoot Road into a permanent embankment.
(7) Metalling of the Persanda-Gidhour road.
(8) Construction of the Jamui-Betya road.
(9) Demarcating lands on the roads noted below :—
  (*a*) Luckeeserai-Secundra Road.
  (*b*) Patna road.
  (*c*) Kujra road.
  (*d*) Kurruckpur road.
  (*e*) Bhagulpore road.
  (*f*) Sultangunge road.
  (*g*) Khagaria-Gogri road.
  (*h*) Buktearpur-Bulhi road.
(10) Construction of the inspection bungalows at Betya, Billow, and Memshi.

Repairs.—Repairs were carried out to most of the roads and bridges, and they are reported to be in fair order.

Original Works and Repairs, Bhagulpur.—The principal works in hand under this head are the Ghoga-Bowsee road, the bridging of the Pipra-Singhessur road, and the erection of boundary pillars and the demarcation of road lands. Two inspection bungalows in south Bhagalpur were in progress, and a bridge on the Doomka road has been reconstructed.

Repairs.—Surface repairs to roads were carried out so as to keep them in driveable order.

Original works and repairs, Purneah.—No original work was in hand during the half-year under report.

Repairs.—The surface and bridge repairs of second, third and fourth class roads were carried out. The damage done to the roads and bridges by the unusually heavy floods of July and August last were repaired. The inspection bungalows were kept in good order.

Original Works and Repairs, Maldah.—No original work of importance was undertaken during the half-year.

Repairs.—Most of the roads were kept in good order and the breaches caused by the floods of September 1886 were repaired. The Chairman reports that while out on tour he found some of the roads in a bad state.

Original Works and Repairs, Sonthal Pergunnahs.—The following are the principal original works in hand:—

(*a*) Widening the bund across the Nunhochee stream in the 19th mile of the road from Dumka to Rampur Hat.

(*b*) Bunding up of Rambohal stream in the 86th mile of the Bhagulpur-Suri road, and providing escape bridges and culverts.

(*c*) Constructing a stone causeway across Bilkee stream in the 89th mile of the Bhagulpur-Suri road.

(*d*) Bunding up of Musanjore stream in the 83rd mile of the Bhagulpur-Suri road, and providing escape bridges and channels.

(*e*) Constructing a bund across Haripur nallah in the 28th mile of Doomka-Rampur Hât road.

(*f*) Dismantling a timber bridge over Jumunagore stream in the 1st mile of the Deo ghur-Sarath road and replacing it by a masonry arched bridge.

Besides the above, the following new roads were partially carried out:—

Palojuri (15th mile, road No. 20) to Sarath.
Sarichna (32nd mile, road No. 2) to Malhota.
Tinpahar Railway Station to Taljhuri.

Repairs.—Most of the roads in this district were repaired and kept in good order. The roads in the Rajmehal Sub-division, however, are bad and require more money to be spent on them.

7 *Village Roads, Monghyr.*—Repairs to the village roads in this district were carried out, liberal allotments having been made to the Branch Committees for the purpose.

Village Roads, Bhagalpur.—The village roads under the Branch Committees were properly repaired, except in Banka, where a small amount only was spent. Rupees 13,820 were allotted for the village roads of this district.

Village Roads, Purneah.—The repairs of most of the village roads are carried out by members, and their reports and accounts not having been received in time, it is not known whether all of them have been repaired; those under the Sudder and a few in the Kessengunge and Arrareah sub-divisions have been repaired.

Village Roads, Maldah and Sonthal Pergunnahs.—There are very few village roads in Maldah and the Sonthal Pergunnahs districts; those in existence were kept up.

8. *Tree-planting, Monghyr.*—19,698 trees planted in previous years were maintained both departmentally and by contract. Planting is still going on on certain roads both departmentally and by contract.

Tree-planting, Bhagalpur.—745 trees were planted out during the half-year, and 10,080 trees have been planted out and maintained up to date.

Tree-planting, Purneah.—No new trees were planted out during the half-year; 3,226 trees planted out in the previous years were maintained.

Tree planting, Maldah.—No allotment for planting out new trees was made; 2,228 trees planted out in the previous years were maintained.

Tree-planting, Sonthal Pergunnahs.—The trees planted out in the previous years amount to 26,000. They are stated to be thriving well.

Establishment.—There were no changes in the engineering establishments under the several District Road Committees. Mr. W. H. Nightingale assumed charge of the office of Divisional Superintendent of Works of this division on the 26th of November 1886, and held the appointment up to the 31st of March 1887, when the office was abolished on the introduction of the Local-Self Government Act to this division.

H. PHILLIPS, Officiating Collector.

NOTICE is hereby given that, under Government orders No. 1250—50 L.R., dated the 13th April 1886, the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Furreedpore, will be put up to sale at the Furreedpore Collectorate on Tuesday, the 26th June 1888, corresponding with 13th Ashar 1295 (B.S.), subject to the payment of Government revenue entered in column 5.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1*st*.—The estates to be sold to the highest bidders above the upset price. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them subject to the revenue fixed in perpetuity.

2*nd*.—The sales to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedules of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited If the balance be not paid by noon of the fifteenth day after the sales, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale or sales to be cancelled (the sum deposited being forfeited to Government), and the estate or estates to be again put up to sale at the risk of the defaulting purchaser or purchasers, after issue of advertisements as in the case of original sales.

NOTICE.

IT is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution for that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st April 1888, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8

	Without postage.	With postage.
For the Calcutta Series ...	Rs. 10 0	Rs. 12 8
„ each of the Madras, Bombay, and Allahabad Series ...	„ 6 0	„ 7 0
„ a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	.....	„ 2 0
„ a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*) ...	.....	„ 1 0

Persons desiring to subscribe for or purchase the Reports should apply to—

Messrs Thacker & Co, Bombay.
Superintendent, Government Press, Madras.
The Government Central Book Depôt, Bombay.
Curator of Government Books, North-Western Provinces and Oudh.
„ Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1888 *should be at once registered and remitted.*

RESOLUTION ON THE ADMINISTRATION REPORTS OF THE REFORMATORY SCHOOLS AT ALIPORE AND HAZARIBAGHFOR THE YEAR 1887.

RESOLUTION.

JAILS.

Darjeeling, the 5th June 1888.

READ—

(1) Letter No 3310, dated 26th April 1888, from the Inspector-General of Jails forwarding the Report of the Administration of the Alipore Reformatory School for the year 1887.

(2) Letter No. 2960, dated 16th April 1888, from the Inspector-General of Jails, forwarding the Report of the Administration of the Hazaribagh Reformatory School.

Read also—

The Reports for the year 1886, and the orders of Government recorded thereon.

The Alipore School opened 1887 with 109 and closed with 108 boys; 23 were admitted during the year, while 22 were released, 1 died and 1 escaped. There were no serious offences, and the proportion of punishments to the number of boys confined shows a very slight increase. No explanation is given of the increase in the punishments of caning and penal diet coincident with a reduction in the number of fines from 95 to 56. The health of

the school was good. Admissions to hospital rose ro m 1·96 per cent. daily in 1886 to 2·73 per cent. in 1887, owing to the large number of weak and sickly boys admitted during the last two years, many of whom had to be kept in hospital for some time before being sent to work. One boy died from epileptic fits.

2. No change has been made in the way in which the day is divided between school and work. The boys work for seven hours and have also one hour of compulsory school; they can also attend the night school from 6-30 to 8 P.M. It is very satisfactory that as many as 90 boys on an average attend in the evening. The mark system worked well. The number of boys entitled to marks increased slightly, and the average weekly earnings rose from Re. 1-13-10 in 1886 to Rs. 2-0-4. The total earned during the year was Rs. 222-10-6, including payments for extra work, of which Rs. 177-4 were deposited in the Government Savings Bank.

3. The reports regarding released boys compare favourably with those for last year. Reports were received in the case of 52 boys; 9 only, or 17·3 per cent., of whom 6 were in jail, were said to bear bad characters. 7 only out of the 52 follow the trades they learned at school, out of whom 2 had been only two and three years respectively in the school. The others had been there five years or more.

4. The cost of maintenance fell from Rs. 126-10-9 to Rs. 126-1-10 for each boy. The cost of diet fell from Rs. 3,381-7-9 in 1886 to Rs. 3,156-4-9 in 1887.

5. The manufactory account shows a profit to the school of Rs. 8,521-15-6 against Rs. 9,180-12-11 in 1886. No allowance is made in the account for the value of the labour of the boys employed, or for wear and tear of block; it merely shows the balance of actual receipts over actual expenditure. Book-binding, carpentry, and tinsmith's work showed net profits of Rs. 4,693-13-0½, Rs. 1,470-2-7 and Rs. 1,451-12-8½ respectively. The profits on cane-work decreased from Rs. 501-14-7 in 1886 to Rs. 313-5-10 in 1887, owing to the increased cost of raw cane and its inferior quality. The number of boys engaged was very small, as some of the old boys were released, and it is only boys of certain castes that can be put to this work.

6. The Lieutenant-Governor is glad to see that Mr. Kirschner's management of the school continues to deserve the praise of the Board of Management and of the Inspector-General of Jails. The acknowledgments of Sir Steuart Bayley are also due to the Board of Management.

7. The number of boys confined in the Hazaribagh School has risen from 227 at the close of 1886 to 232 at the close of 1887 The daily average population was 225 against 209·4 in 1886. The health of the school was good; only one boy died; he had been sickly for several years.

8. There was an improvement in discipline during the year. 124 boys were neither punished nor reported. There were only 570 punishments against 717 last year, showing that the severity of the punishments last year had the desired effect. Whipping and hand-caning were resorted to in 135 cases only against 325 in 1886. On the other hand, marks were forfeited in 310 cases against 123 in 1886. Penal diet was not resorted to. There was one serious case of assault, in which four boys and two of the trade instructors attacked the store-keeper. The trade instructors were dismissed but not prosecuted, as the Deputy Commissioner considered that there was not sufficient evidence to secure a conviction.

9. The daily routine is the same as at Alipore, except that the hours of rising differ slightly, and night school at Hazaribagh lasts from 6 to 8 P.M., while at Alipore it begins at 6-30 P.M. The Inspector-General of Jails was requested in paragraph 9 of last year's Resolution and in paragraph 11 of the Resolution for 1885, to notice specially the question of the assimilation of system at the two schools, but he has not done so. He will be again asked to report on this subject. No figures have been given to show the average attendance at the night school, though this was called for in last year's resolution. This omission should be supplied in the next report. The mark system worked well. The average earning per week rose from Rs. 8-2-4 in 1886 to Rs. 9-15-1 in 1887. The total earnings came to Rs. 517-2-9.

10. Reports were received regarding 54 boys; 42 reports were favourable; in 8 cases the whereabouts of the boys were not known; 4 had been reconvicted and sent to jail. One boy was looked upon with suspicion by the police; only 6 boys continued to work at the trade they learnt in school.

11. The expenditure fell from Rs. 108-10-7 per head in 1886 to Rs. 77-9-5 in 1887. This decrease was mainly due to small outlay required for buildings, and to economies effected in dieting the boys by getting *atta* from the jail, purchasing animal food at a lower rate, and using a cheaper kind of rice.

12. The manufacture account shows a profit of Rs. 1,698-12-2 only against Rs. 2,314-4-2 in 1886. There is a very limited local market and the cost of carriage to Calcutta and elsewhere absorbs a great part of the profits. These expenses were so great on the work done for the Postal Department that the contract has been discontinued. The trades taught are carpentry, in which there is a profit of Rs. 1,445, ironwork, shoe-making and tinwork. Twenty-two of the younger boys were employed in the garden. It struck the Lieutenant-Governor when visiting the school last March that it might be possible to introduce the manufacture of objects for which a local demand exists, and so save the cost of carriage to Calcutta. The subject has since been considered by the Inspector-General of Jails and the Superintendent of Jail Manufactures, but without any result as yet. Dr. Lethbridge, however, has promised to look carefully into the matter when he visits the school next August.

13. The Lieutenant-Governor notices with pleasure that the school is regularly inspected by the official visitors, who have again very favourably reported on Mr. Hill, the Deputy Superintendent. Dr. Moorhead deserves credit for its excellent condition.

ORDER.—Ordered that a copy of the Resolution be forwarded to the President of the Board of Management of the Reformatory School at Alipore for information and communication to the Members of the Board.

Ordered also that a copy of the Reports, and a copy of the Resolution, be forwarded to the Inspector-General of Jails for information and communication to the Superintendent of the Hazaribagh Reformatory School.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Chief Secretary to the Government of Bengal.

REPORT ON THE WORKING OF THE LICENSED WAREHOUSE AND FIRE-BRIGADE ACT IN THE SUBURBS OF CALCUTTA FOR THE YEAR 1887-88.

The 9th June 1888.—The following report is published for general information.

COLMAN MACAULAY,
Secy. to the Govt. of Bengal.

No. 28MM, dated Calcutta, the 30th May 1888.

From—A. SMITH, Esq., Commissioner of the Presidency Division,
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit herewith, under the provisions of section 30 of the Licensed Warehouse and Fire-Brigade Act, IV (B.C.) of 1883, the annual report, together with the usual statements, on the working of the Act during the year 1887-88.

2. Statement A shows the names of the different hydraulic presses, jute mills, cotton mills, hand screws and warehouses for storage of jute, licensed in the suburbs; B contains in the prescribed form the receipts and disbursements under the Act; and C the details of fires which occurred during the year.

3. The number of hydraulic presses, jute mills, cotton mills and hand screws remained the same as in the last year. That of warehouses for the storage of jute increased from 103 to 108, five such houses having been newly added to the list. The Asiatic Jute Mill, which was unoccupied during the previous year, was worked during the year of report, and one of the two hand screws remained unoccupied. Of the 108 jute warehouses in the list, 32 remained unoccupied, against 28 in the year preceding. The notes in the column of remarks of statement A will show these facts and other necessary particulars connected with the working of the warehouses.

4. The license-fees realized from all classes of warehouses during the year amounted to Rs. 33,975-12, viz, Rs. 21,624-13 from hydraulic presses, Rs. 1,088 from jute mills, Rs. 240 from cotton mills, Rs. 165 from hand screws, and Rs. 10,857-15 from jute warehouses, against a total sum of Rs. 33,912-13, viz., Rs. 21,624-13 from hydraulic presses, Rs. 968 from jute mills, Rs. 240 from cotton mills, Rs. 480 from hand screws, and Rs. 10,600 from jute warehouses, received during the year 1886-87. Thus there has been a net increase of Rs. 62-15 in the license-fees during the year of report, as compared with the result of the preceding year.

5. There were eleven fires during the year as per details in the statement C supplied by the Police, causing a loss to the extent of Rs. 10,250, against six fires and a loss of Rs 7,440 in the year preceding.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, DURING THE MONTH OF MAY 1888.

THE normal meteorological conditions in Bengal during May are to a considerable extent similar to those of April. There is the steady and increasing difference of temperature between the land and the sea area, and in this month this difference attains almost its maximum. The area of maximum temperature during May includes the western districts of South Behar, the North-West Provinces, Rajputana and Central India. With the increasing temperature of the land surface, the southerly winds blowing from the Bay of Bengal strengthen considerably, and owing to the physical obstacles of the hill systems to the east and north of Bengal, they appear as south-easterly winds in East Bengal, and as easterly winds in North Bengal. At the same time, however, the usual hot, dry westerly winds are blowing over considerable portions of Behar and Chutia Nagpur, and thus during May, as explained in previous monthly reports, conditions are favourable to the production of the local storms called nor'-westers. These, it is probable, are produced by the action of the opposing winds in elevating the moist sea breezes, and by this ascensional motion their water vapour is condensed, and sufficient energy is at the same time liberated to produce the well-known effects of these storms.

The southerly breezes which blow during this month at the head of the Bay are of considerable strength, and in fact at Saugor Island and False Point the wind velocities measured in May are generally greater than those during the actual rainy season, but there is reason to believe that during May the current is of comparatively small depth compared to what it is during the actual monsoon period. These winds, however, carry considerable amounts of moisture into East and North Bengal, and in the neighbourhood of the hills ascensional movement takes place, followed frequently by local storms and by heavy rainfall. This action will account for the large rainfall which occurs during this month in the northern and eastern districts of the province.

During May the distribution of the normal rainfall is simple, and the lines of equal rainfall run nearly north and south through the province, or rather almost parallel to a line joining the Chittagong Hill Tracts, the Tipperah Hills, the Garo Hills, and the Darjeeling Hills, the largest amounts being received in the eastern and northern districts, and smallest amounts in the western districts. Thus the average rainfall of the month is less than 2 inches in the southern parts of the Sarun and Mozufferpore districts, the Gya and Shahabad districts, and the western parts of Chutia Nagpur. To the east of these districts, up to a line running nearly north from the mouth of the Hooghly, the rainfall increases from 2 up to 5 inches. To the east of this, up to a line passing through Rungpore, Jamalpore, Mymensing, Bramunberiah, Comilla, and Cox's Bazar, the average rainfall increases eastwards from 5 to 10 inches To the east of that line it exceeds 10 inches, and increases rapidly in amount towards the Garo and Khasia Hills and towards the Dooars, and at Buxa in the Western Dooars, the average rainfall in May is no less than 2 ·93 inches.

The meteorology of May is generally rather important, for about the second or third week, the south-west monsoon makes its appearance in the south of the Bay, and gives heavy rain and fairly strong winds at the South Ceylon stations. The monsoon current gradually creeps up the east of the Bay, and rain sets in along the Arakan coast towards the close of the month, and it afterwards spreads into East and North Bengal early in June.

In the front of the advancing monsoon current frequently cyclonic storms arise, which are sometimes small and feeble, and at other times larger and of considerable intensity. When these cyclonic storms are formed quite in the south of the Bay, they usually advance towards the Madras coast; but when the storms originate rather later, that is, when the monsoon current has advanced well into the centre of the Bay, the storms which then form appear usually to advance either towards the Arakan coast, or towards the South Bengal coast.

Meteorology of the month —The principal features of interest in the meteorology of the past month have been—

1. A mean barometric pressure for the whole province of Bengal which has been almost normal, though at the western and northern stations pressure has been slightly below the normal, and at the south-eastern stations slightly above it. The variation from the normal for the whole province is a defect of only 0·007 inch. In Assam pressure has been below the normal by 0·0 4 inch.

2. A mean temperature for the whole province which has been slightly (0 6°) in excess of the normal. The northern districts of the province have, however, shown mean temperatures distinctly below the normal, while South Behar, Chutia Nagpur, Orissa, South-West and East Bengal have all shown excess temperatures In Assam temperature has been below the normal by 0·9°.

3. Rainfall has been below the normal in all the meteorological divisions of the province of Bengal except in North Behar, where the fall has been normal in amount. In Orissa,

East Bengal, and North Bengal the defects are small; in South-West Bengal and South Behar the defects are considerable; while in Chutia Nagpur the defect has been large, and the rainfall has been only 38 per cent. of the usual amount.

4. There were three periods in the month during which weather was disturbed The first period was short, and on the 1st and 2nd local storms with rain were rather numerous in South-West, East and North Bengal Again from the 6th to the 10th weather conditions over the same districts became disturbed, and showers accompanying local storms occurred with moderate frequency. The third period of disturbance lasted from the 16th to the end of the month, and at this time all the divisions of Bengal received showers, and for the last three or four days of the month the local storms were rather numerous, and moderately heavy rainfall was received.

5. The first advance of south-west monsoon winds in the south of the Bay took place about the 8th or 9th of the month, and in front of this advance a small cyclonic storm was formed which crossed the Madras coast. This advance, however, does not appear to have progressed very far up the Bay. The second advance commenced about the 17th, and lasted only for five days, and it would appear that in this advance the monsoon winds reached about the centre of the Bay, when they again died away. The third advance of the monsoon current commenced in the south of the Bay on the 27th, and from this date up till the end of the month very strong winds were reported in the south of the Bay. A small storm was subsequently formed in front of this advance, but as it did not form till early in June, its history will be described in the meteorological summary for that month.

At the end of April a distinct low-pressure area had formed over Chutia Nagpur, which also caused comparatively low pressure over the greater part of Orissa, South and South-East Bengal. The wind systems blowing over the province were also somewhat irregular; south-westerly winds prevailed in Orissa and Chutia Nagpur, southerly winds in South and South-East Bengal, and easterly, north-easterly and northerly winds elsewhere. These winds were also at the majority of stations very moist, and, owing to the rainfall which was occurring, temperature was generally considerably below the normal. Under such conditions weather continued disturbed, and local storms with rain were general in South-West, East and North Bengal, and in the southern parts of Chutia Nagpur up to 1st and in many cases up to the 2nd of May, and even over a large part of Behar, rainfall was general on April 30th; but in the Shahabad, Gya and Patna districts in South Behar and in the Hazaribagh and Lohardugga districts of Chutia Nagpur, rainfall was practically absent throughout this period, A slight change, however, commenced in the meteorological conditions of the province on the 1st, inasmuch as the easterly element in the wind directions became less strongly pronounced. These moist easterly winds again diminished in force on the 2nd, and by the 3rd they had practically retired from Bengal, and westerly and south-westerly winds, accompanied by a decided decrease in the humidity, obtained in their place. In Assam, however, moist easterly winds were still reported, and this district continued to receive rain. From the 2nd fairly settled weather obtained over the whole of Bengal, and rainfall was practically absent up to the 5th, though there was a slight re-action noticeable in the wind directions, and an easterly wind current commenced to make itself felt at the eastern and northern stations; while in Chutia Nagpur and at some of the central stations in Behar northerly and north-westerly winds were reported. On the following day winds in Chutia Nagpur became north-westerly, though more or less easterly winds were still blowing at the eastern stations On the 7th the easterly winds again extended to Chutia Nagpur and parts of Behar, and for some days similar oscillations took place from day to day. These changes in the wind directions and the slight interaction taking place between the wind systems over the province at once caused weather conditions to become slighly disturbed, and local storms with rain became rather more numerous from the 6th, and they continued moderately frequent up to the 10th. The storms only extended over parts of the various districts, and thus the rainfall brought up by them was not general in any part of the province. Rainfall was in fact mainly confined in Orissa to the Balasore district; in South-West Bengal to the Burdwan, Bankoorah, Beerbhoom, Nuddea, Jessore, and Moorshedabad districts; in East Bengal to the Furreedpore, Dacca, Tipperah and Mymensingh districts; in North Bengal to the Rajshahye, Maldah, and Julpigoree districts; in South Behar to the Sonthal Pergunnahs district; and in Chutia Nagpur to the Manbhoom district. Over the whole of North Behar and in the remaining districts of the other meteorological divisions, local storms were very few in number, and rainfall was almost absent.

While, however, the meteorological changes in Bengal at this period were unimportant, in the south of the Bay conditions decidedly altered. From about the 7th or 8th it was clear that the general distribution of pressure over the Bay was favourable for the first advance of south-west monsoon winds in the south of the Bay, and about the 8th or 9th the first feeble advance did take place. The advance was decidedly less powerful than usual, but nevertheless in front of the inrush of moist winds a small cyclonic storm was formed which on the 11th appeared off the South Madras coast, the centre being not far off the land, and apparently to the east-north-east of Negapatam at 8 A.M. of the 11th.

The storm during the night of the 11th advanced across the coast in a westerly or west-north westerly direction, the centre apparently passing near Cuddalore, and on the morning of the 12th the centre was well inland to the north west of Negapatam. Though the storm was by no means an intense one, yet it gave strong winds, a rough sea, and rather squally weather along the whole of the coast from Madras southwards. On the 13th the small storm had again advanced in a north-westerly direction, but it had rather rapidly filled up, and had practically disappeared. This advance of the monsoon winds was rather a feeble one, and it does not appear to have advanced as a definite moisture bearing current very far up the Bay, but the low pressure, which apparently accompanied its advance in the south of the Bay, afterwards spread in a northerly direction, and a wave, or perhaps two waves of decidedly low pressure, advanced over the Bay into Bengal. The first rapid fall of pressure in the north of the Bay took place on the 13th, and continued on the 14th, when at some stations pressure fell by no less than a fifth of an inch during the two days; on the 15th there was a slight recovery; but on the 16th a further very rapid fall commenced, which was greatest on the Burma coast and in Orissa, and there was again a very large decrease on the 17th off the Arakan and Pegu coasts, the fall in some cases exceeding 0·15 inch. This caused a very distinct low-pressure area to be formed to the south-west of Akyab, and this diffused depression was accompanied by a distinct cyclonic circulation of winds. The depression probably gave somewhat squally weather over the northern half of the Bay on this day; but it did not concentrate or develop into any definite storm, and on the following day the area of low pressure advanced over South Bengal, when the pressure recorded became extremely low, as for instance Balasore registered 29·544 inches a pressure almost as low as is generally recorded at the commencement of the rainy season. Beyond, however, this abnormal pressure and bringing up with it moderately strong, but very moist, winds, and giving rather numerous showers, the depression did not influence the weather in Bengal to any material extent, and it subsequently passed into the interior of the province and afterwards appeared in Behar.

For the period from the 18th to the 25th, weather continued generally slightly disturbed, and local storms with rain were fairly numerous. For the greater part of this period a rather strong moist southerly wind current was blowing at the southern stations, south-easterly and easterly winds were blowing at the eastern stations, and a steady easterly and north-easterly current at the northern stations; while in the west and south-west of the province winds were south-westerly and westerly. There was thus a feeble circulation of winds over the province, which caused local disturbances and rain.

While, therefore, the conditions in Bengal and Assam at this period had not varied to any large extent, more important changes were occurring in the Bay; and a second advance of monsoon winds took place in the south of the Bay, and from the 17th up to the 22nd decidedly strong winds were reported from the Ceylon stations. After this date wind velocities again rapidly decreased. This advance of monsoon winds did not, as in the first case, give rise to any storm in front of it, and it apparently simply advanced up the centre and east of the Bay, and moderate and fairly general rain commenced to fall at the South Burma stations from about the 24th, though it was only on the 26th that very heavy rain (nearly 7 inches) was first reported at Moulmein. It is impossible to say with certainty how far up the centre of the Bay this advance of south-west monsoon winds reached, but it is probable it extended over the whole of the southern half.

For the last week of the month the weather in Bengal remained decidedly disturbed, and there was a distinct tendency to a circulation of winds. In Orissa winds were south-westerly, and in South-Bengal south-westerly and southerly, and the velocity of the winds blowing at the head of the Bay was very large, particularly at the commencement of the week. At the eastern stations winds were south-easterly, and at the northern stations easterly, while in the west of Behar and in Chutia Nagpur winds were in some cases north-westerly and westerly. The result of this interaction and of the strong moist winds pouring into the province was the formation of extremely numerous local storms, generally accompanied by rain, in almost all districts of the province, and thus good general rain was received. This rainfall, however, cannot be said to have been brought up by the true south-west monsoon current, for this had not made its appearance over Bengal up to the close of the month.

The meteorological changes taking place in the Bay were again more important than those over the land area. It has been noticed that the second advance of monsoon winds took place over the south of the Bay, from the 17th up to the 22nd. Winds then fell off in strength at the southern stations, and up to the morning of the 27th they remained of about normal force. From this date, however, an extremely rapid increase took place in the strength of the winds at the Ceylon stations, and exceptionally strong winds were reported from the 28th up to the close of the week. During this period weather must have been more or less stormy generally over the whole of the south of the Bay, but up to June 1st there was no evidence of any distinct storm having formed in front of this rush of monsoon winds, which on this date had reached well into the middle of the Bay, and when it almost appeared as if the advance would continue up the Bay, and bring about the commencement

of the true rains in Bengal. The further history of this advance, however, belongs to the meteorology of the following month

Pressure—Was slightly in defect of the normal during the first week of the month; in the second week a slight, but decidedly larger, general excess was recorded; in the third week pressure was again in defect; and it remained slightly in defect till the close of the month. Taking into consideration only those stations from which records have been received for a series of years, it is found that the mean pressure for the whole of Bengal for May has been only 0 007 inch in defect of the normal. In South-East Bengal a slight excess pressure, such as 0·013 inch at Chittagong, has been recorded, while larger defects have been registered at the western and northern stations; thus Calcutta has been in defect of the normal by 0·021 inch, and Gya by 0 026 inch. In Assam pressure has been in defect by 0·014 inch.

Temperature.—The temperature variations during the month have to a great extent depended on the distribution of the rainfall, but the general mean temperature of the province has been in excess by 0 6°. North Bengal and North Behar show defects of from one to one and a half degrees; South-West and East Bengal show excess temperatures less than one degree; Orissa and South Behar temperatures from one to one and a half degrees above the normal; while in Chutia Nagpur the excess is three degrees. In Assam a defect of 0·9° has been registered.

Some fairly high maximum temperatures have been recorded during the month. Thus—

At Cuttack	on the	21st	maximum temperature was	114·4°
„ Dehree	„	23rd	„	113·5°
„ Chyebassa	„	25th	„	112·3°
„ Gya	„	22nd	„	112·1°
„ Raneegunge	„	21st	„	111·0°
„ Midnapore	„	21st	„	110·4°
„ Arrah	„	22nd	„	109·4°
„ Bankipore	„	22nd	„	109·1°

Rainfall.—The periods of rainfall and its general distribution have been already referred to, and it therefore only remains to state the amounts which have been received. The only district which has received a fall in excess of the normal is North Behar, which has received an average fall of 3 29 inches, the normal fall being 3·21 inches. All other districts have received falls in defect, though except in the case of Chutia Nagpur, and to a smaller extent in South-West Bengal and South Behar, the defects have not been very large. East and North Bengal have received a general rainfall of between eight and eight and a half inches, and Orissa has received a fall of three and a half inches, and in all three cases the defects are less than 10 per cent. of the normal fall In South-West Bengal there has been an average fall of 3·33 inches, which is equal to about 60 per cent. of the normal fall; while in South Behar the fall has averaged 1·42 inches, which is also nearly 60 per cent. of the usual fall. In Chutia Nagpur, however, the fall has only averaged a little more than an inch, and this is only 38 per cent of the normal fall in May.

When the rainfall variations are charted, it is seen that there are three small districts where the falls have been in excess of the normal. First an area running in a north-easterly direction from East Bengal through North Bengal into North Behar, and comprising parts of the following districts Tipperah, Mymensingh, Bogra, Dinagepore, Purneah, Bhagulpore, and Durbhunga; a second area comprising part of the Burdwan and Beerbhoom districts; and a third area comprising the Balasore and part of the Midnapore district. All the remainder of the province shows a defective rainfall, but it is only in parts of South and South-East Bengal, and in the districts close to the hills of North Bengal, that the defects exceed three inches.

The following table gives full data for the comparison of the actual and the normal rainfall of the month of May in all districts of the province. The figures are derived from the average and actual rainfall of the rain-recording stations in each district, due allowance or weight being made for the area which each station represents. This gives a more accurate average than the arithmetical means given in the weekly and monthly meteorological tables. The first column gives the normal or average district rainfall as determined from the rainfall observations of the past 15 years. The second column gives the actual district rainfall as determined from the weighted actual rainfalls of the month at the reporting stations in each district. The third column expresses the ratio of the actual district rainfall of the past month to the normal rainfall as a percentage. The fourth column gives the same information as the third column in a slightly different form: It states as a percentage how much the district rainfall of the month varied in excess or defect from the normal rainfall, and is hence the difference between the numbers in the third column and 100:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Explanation —Summary —The normal means of air pressure and temperature are the arithmetical average of means of the reading during the same period for the last ten years The *humidity* of the atmosphere is expressed as percentage, saturated air being represented by 100 A clear sky is denoted by 0 and an overcast sky by 10 The numbers are the numerical means or average of the rainfall in that district de ermined from the returns sent in by the sub divisional station for the period in question during the past 10 stations in the district sending in returns divided by the number of stations A rainy day is one on which at least hundredth of an inch fell.

* Mean of 4 days.
† Mean of 6 days.

CALCUTTA, *the 8th June* 1888.

SUMMARY OF METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 8TH OF JUNE 1888.

AT the close of the previous week the meteorological conditions generally were normal for the period just previous to the commencement of the monsoon rains in Bengal. Hot weather conditions but with rather moist winds, and frequent local storms with rain, obtained in Bengal, and over the south and centre of the Bay the monsoon winds had made good progress. The monsoon current then blowing over this area represented the third strong advance of these winds which had taken place this year from the south of the Bay, and this advance was decidedly the most powerful and pronounced of the three. This advance had been shown from the 27th of May by the very strong winds which had been blowing at the Ceylon stations, and on June 1st, or the last day of the previous week, the advance had reached well into the centre of the Bay, and there were no indications of any definite storm having formed in front of the advance. On the 2nd of June, however, there was a decided fall of pressure at the central stations on the east coast of the Bay, while wind directions showed rather strong indraught towards the sea area. It was clear on this day that a small cyclonic storm was forming to the north-west of the Andaman Islands. On the morning of the 3rd the small storm had developed somewhat rapidly, and it existed as a well-defined, though rather small, storm off the Pegu Coast. On this day weather was probably rather stormy to the east of the centre of the Bay, and strong winds were reported in Burma at the neighbouring stations of Diamond Island and Bassein. The small storm then commenced to move in a north-westerly direction, and on the 4th of June it was in the centre of the Bay, and apparently advancing towards the Orissa coast. On this day also it is probable that the storm was of moderate intensity, though there were indications that it was even then of less intensity than it had been on the previous day. The special four-hourly observations made at some of the principal stations at the head of the Bay, which had been called for, showed that from 8 A.M. of the 4th, and particularly during the night of this day, the storm gradually became more and more feeble till, on approaching the coast on the morning of the 5th, it had ceased to exist as a definite storm, and its place was taken by a diffused disturbance of little importance, which gradually drifted over Orissa and the head of the Bay, giving moderate rain only. On the 6th, pressure continued to fall over South-West Bengal and Orissa, owing probably to the continued feeble existence of the depression, but after this date it disappeared, and ceased to affect the weather of the province. With its disappearance a moderately strong south-easterly current set in over the greater part of the province, and moderate rain fell in all districts except South Behar and Chutia Nagpur. Even up to the close of the week, however, the true rains cannot be said to have broken in Bengal, for the rainfall brought up by the moist wind current blowing has generally accompanied local storms; and though south-easterly and easterly winds have been reported over a large part of the province, still north-westerly and westerly winds have been blowing at the western stations in Behar and Chutia Nagpur. By the actions above described, however, fairly frequent rain showers have been received in all districts of the province except parts of Chutia Nagpur and South Behar. In the Bay during the week weather has probably been squally, and for one or two days perhaps stormy in the central and eastern parts.

Pressure.—From the preceding description of the meteorology of the week, it will be seen that pressure has been necessarily low in the districts of Orissa and South-West Bengal. At False Point indeed the mean pressure for the week has been below the normal by 0·043 inch, and at Saugor Island by 0·040 inch, but the general defect of pressure over the whole province has been 0·019 inch, and at such stations as Durbhanga the mean presure for the week has been actually above the normal. In Assam, pressure has been below the normal by 0·023 inch.

Temperature—Has been above the normal in East Bengal, and elsewhere it has been below it; the defect equalling 2° in South Behar and nearly 4° in North Behar. For the whole province temperature has been below the normal by 1·2°. In Assam the defect has only been 0·7°.

Rainfall—Has been slightly above the usual fall for the period in South-West Bengal and in Behar; it has been below it by moderate amounts in Orissa, North Bengal and Chutia Nagpur; while in East Bengal the defect has been rather large. The general rainfall in South-West and North Bengal has averaged between two and three inches; in East Bengal and North Behar it has averaged from one to two inches; while in Orissa, South Behar and Chutia Nagpur it has varied from about half an inch to an inch.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 8th of June 1888 :—

MEMORANDUM.

THE subjoined table presents the vital statistics of the principal Municipalities in Bengal for the week ending 26th May 1888. The results to be gathered from it, contrasted with those of the preceding week ending 19th May, are the following :—

1. Births and deaths were registered at the following rates :—

	Ratio per *mille* for weeks ending—	
	26th May 1888.	19th May 1888.
Births	18·4	20·0
Deaths	22·6	24·2

indicating a retrogression in the registration of both the casualties.

2. In the following Municipalities births and deaths occurred at the highest rates :—

Births.	Ratio per *mille.*	*Deaths.*	Ratio per *mille.*
Narainganj	45·6	Utterpara	37·7
Monghyr	36·3	Suburbs of Calcutta	34·8
Bhagulpore	33·5	Gya	34·8
Mozufferpore	32·8	Kishnaghur	34·1
Comillah	30·8	Bhagulpore	32·6
		Durbhanga	32·3
		Chittagong	30·5

3. From the figures in the following table it appears that during the week under notice, the mortality from cholera and fever had declined sensibly, and that there were no marked differences in fatal results from the rest of the death-causes :—

	Ratio per *mille* during the weeks ending—	
	26th May 1888.	19th May 1888.
Cholera	8·6	4·5
Small-pox	·03	1
Fever	8·7	9·9
Bowel-complaints	3·0	2·7
Injury	·7	·6
Other causes	6·5	6·4

4. Of the diseases mentioned above, while fever proved noticeably fatal in the Kishnaghur Municipality, viz., at the rate of 24·6 per 1,000 of population, and small-pox, bowel-complaints and injury exhibited only normal fatality, cholera and the maladies recorded under the head of "Other causes" caused the highest mortality in the following Municipalities :—

Cholera.	Ratio per *mille.*	*Other causes.*	Ratio per *mille.*
Suburbs of Calcutta	9·5	Utterpara	28·3
Chittagong	7·0	Mozufferpore	14·6
Hughli	5·4	Bhagulpore	12·7
Durbhanga	4·7	Gya	12·3
Patna	4·2		
Gya	2·7		
Dacca	2·6		
Howrah	2·3		

5. In relation to *Sex*, *Class* and *Age*, the mortality of the week was distributed as follows :—

According to Sex.	Ratio per *mille.*
Males	23·4
Females	21·8
Ratio of male deaths to every 100 female deaths	121

According to Class.	Ratio per *mille.*
Christians	30·4
Hindus	21·8
Mahomedans ...	24·7

According to Age.	Ratio per *mille.*

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February last, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

General remarks on the fluctuation of principal staples carried over the East Indian Railway during five weeks ended 28th April 1888.

INCREASES.

Coal and coke.—There was an increase in both the upward and downward traffic; the former was inconsiderable, and the latter was due to facilities afforded by the opening of the Jubilee Bridge.

Piece-goods.—The increase under this head was due to the large number of Hindu marriage ceremonies taking place during the period.

Gunny bags.—Due to larger despatches to the North-Western Provinces and Punjab in the knowledge that crops in those provinces were fuller than in 1887.

Other fibres, raw.—Due chiefly to despatches from Allahabad.

Minerals.—This large increase was principally due to heavy despatches of lime from Raneegunge and Ondal for the Kidderpore Dock-works.

Iron.—Due principally to large consignments of pig iron from Howrah to Peshawar and of machinery for cotton mills to Cawnpore.

Seeds.—The increase was principally in linseed and mustard and rape seed; the former for export, and the latter for both export and local consumption.

Spices.—This was chiefly in chillies from Mokameh, Mokameh Ghât and *vid* Mokameh Ghât.

Tobacco.—This was in despatches from the Tirhoot State and the Bengal and North-Western Railways, and also from Barh and Patna, owing to the crops this season having been abundant.

DECREASES.

Cotton.—Due to bad crops last season.

Wheat.—No demand for export owing to home market being dull.

Gram and pulses.—Due to absence of demand in Calcutta for shipment to Madras and Burmah.

Rice (husked and unhusked).—There was an increase in the upward traffic, but a greater decrease in the downward despatches, resulting in a considerable falling off in the weight carried attended with a smaller decrease in earnings; and this was due to the Calcutta market not being able to compete on equal terms with up-country purchasers.

Other grains.—The small decrease under this head appears to be due to there having been fair crops at all stations

Brass and copper.—Due to despatches being still restricted by high prices.

Opium.—Increase in weight carried, but a decrease in earnings. The despatches in crude opium increased; but there were smaller despatches of the manufactured article to Calcutta than in the corresponding period of 1887.

Railway material, Foreign.—The decrease was in consequence of heavy despatches last year from Howrah and *vid* Jubbulpore for the Indian Midland Railway.

Salt.—Due to high prices still ruling in the Calcutta market.

Stone.—Due to absence of demand for Mirzapore stone.

Sugar and jaggree.—Increase in weight attended with decrease in earnings, and the fluctuations are due to the same causes as reported for March 1888.

NOTIFICATION—EMIGRATION.

Simla, the 24th May 1888.

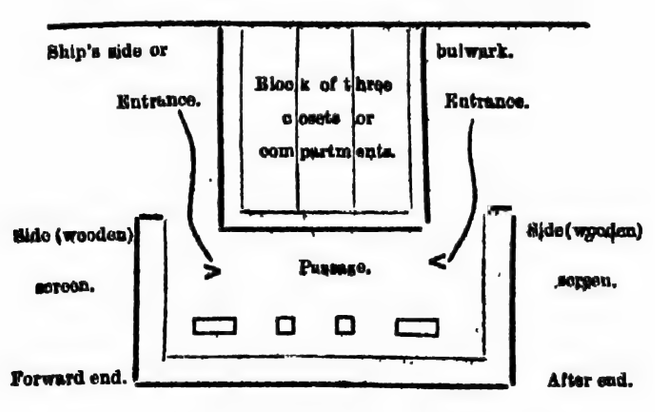
No. 77—27-4*E.*—With reference to notification No. 48, dated the 17th April, 1888, the following amendments in the Rules under the Indian Emigration Act, XXI of 1883, are published under section 81 (4) of that Act for general information:

1. To Rule 7, Schedule (page 88), after the existing Rule under the heading "Blocks" add the following:

"In front of each block, and at a distance of about 2 feet from it, a substantial wooden frame of stanchions and connecting pieces shall be erected, extending along the entire length of the block, and to about 2 feet beyond it on each side. This frame shall be sufficiently high to support an extension of the closet roof, which shall be projected in future to a distance of about 2 feet, and shall rest on, and be securely fastened to, the top of the frame.

"A canvas screen, oiled or tarred, and capable of being securely fastened in its place when let down and rolled up when not required, shall be fitted to the front of the above frame, and shall hang from under the projected roof above to about 18 inches of the deck, so as to form, when let down, a sheltered passage to the closets that are behind and entirely covered by it. The exposed forward and after ends or side entrances of this passage shall be excluded from view by wooden side screens—one at each end—firmly fixed at right angles to the frame in front, so as to leave, at each end, a covered entrance to the passage. With a view to better control, the *forward end* entrances to the women's closets may be closed, or be capable of being closed, when desired."

NOTE.—The relative positions of a block of water-closets, and of the front and side screens common to the block, may be roughly indicated thus:



2. Under the heading "Compartments," and in the Rule below the Table (page 88), omit the paragraph beginning with the words "Every compartment" and ending with the words "for a handle."

To—The Secretary to the Government of Bengal.

IN continuation of my telegram of the 5th instant, I am directed to forward herewith, for the information of the Government of Bengal, copy of a Resolution of this Government No. 1963, dated 9th idem, and of the Notification issued thereunder, regarding the enforcement of the B Quarantine Rules at Aden and Perim against arrivals from Singkel Island off Sumatra.

Quarantine: Imposition of——on Singkel Islands off Sumatra.

No. 1963, dated Bombay Castle, the 9th June 1888.

GENERAL DEPARTMENT.

Telegram from the Government of India, dated 8th June 1888:—

"Your telegram 6th. Imposition of quarantine at Aden and Perim against arrivals from Singkel Islands off Sumatra sanctioned."

RESOLUTION.—A notification should be published in a *Bombay Government Gazette* Extraordinary bringing the B Quarantine Rules into operation at Aden and Perim against arrivals from Singkel Islands off Sumatra.

2. Copies of the notification should be forwarded to the Political Resident, Aden, and the other Officers and Departments concerned, for information, with reference to Government Resolution No. 1936, dated 6th instant. Copies should also be forwarded to the Governments of India, Bengal, Madras and Ceylon, and the Chief Commissioner, Burmah.

E LAWRENCE,
Acting Under-Secretary to Government.

GENERAL DEPARTMENT.

Bombay Castle, 9th June 1888.

No. 1963.—In exercise of the power conferred by Act I of 1870, the following Rules for Quarantine against Cholera have been made by the Government of Bombay, with the previous sanction of the Governor-General in Council: they have effect from the 5th instant in the Port of Aden and at Perim as a temporary measure:—

I.—The Commander of every vessel, including buggalows or other native craft arriving from Singkel Islands off Sumatra shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such Commander shall not, except as hereinafter provided, allow any communication, either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on arrival, the Commander shall cause the letter R of the Commercial Signal Code to be hoisted, and shall keep the said flag flying during his stay in port, or until authorized by the Health Officer to haul it down. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year. If communication with the shore is desired, the Health Officer shall go alongside the vessel, and, after all

necessary enquiries, shall direct the Commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival, or for the shorter period prescribed in Rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects, and suspectible goods.

IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is besides in good hygienic condition, the duration of the quarantine will be diminished according to the following scale:—

After eight days of voyage	...	...	six days of quarantine.	
Do. nine	ditto	...	...	five	ditto.
Do. ten	ditto	...	...	four	ditto.
Do. eleven	ditto	...	...	three	ditto.
Do. twelve	ditto	...	...	two	ditto.
Do. thirteen	ditto and upwards	...	twenty-four hours of quarantine.		

V.—If during the period a vessel is at the quarantine anchorage aforesaid, any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a period of seven days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule III.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden and Perim, which may have communicated with vessels coming from Singkel Islands off Sumatra, shall be subjected to the same quarantine as vessels arriving at Aden and Perim from that Port.

X.—All vessels which have undergone quarantine in the manner above prescribed should have the fact clearly stated on their Bills of Health.

By order of His Excellency the Right Hon'ble the Governor in Council,

J. NUGENT,

Chief Secretary to Government.

NOTICE TO MARINERS—(No. 25).

BAY OF BENGAL.

ANDAMAN ISLANDS.

Depth of water on the three Coral Banks off the West Coast.

THE following information has been received from Commander Alfred Carpenter, R. N., and is the result of a late Survey by H. M. I. M. S. *Investigator*, variation 2° E. See Admiralty Charts 825, 514, 70, 830; also Bay of Bengal Pilot, 1887:—

The Coral Banks.—The three large banks off the west coast of the Andaman Islands are composed of dead Coral and Sand. On West Coral Bank, the northern one, the least depth is 6 fathoms near the centre; on Middle Coral Bank the least depth is 23 feet rock where the rocky strata crops up through the Sand and Coral; also near the centre of the bank; and on South Coral Bank the least water is 6 fathoms.

The banks are safe to cross in fine weather; the water is very clear and looks much shoaler than it really is.

PORT BLAIR.

Northern Red Buoy has been moved one cable west of its old position.

The northern red buoy limiting the reef off the Port Officer's Jetty has been moved one cable west of its old position, and now lies 4 cables N. N.-W. ½ W. of the wooden pier end.

BURMA COAST.

KYOUK-PHYOU HARBOUR—ARRACAN.

Two dangerous shoals, a mile west of Saddle Island.

From comparison of old charts, and by information lately gathered, there appear to be two dangerous shoals which break in heavy weather a full mile west of Saddle Island. H M. I. M. S. *Investigator* struck shoal water 4½ fathoms, hereabouts in 1885, as she was leaving Kyouk-Phyou, after finishing the survey of the actual harbour. Vessels should not pass eastward of the Irrawaddy shoal.

BASSEIN RIVER—GULF OF MARTABAN.

Placing of a red tripod beacon with white cage on the Wolf Rocks near the entrance of the river; and erection of a tripod beacon on Cockatoo Rock; also regarding Long Sand; Ridge Shoal; Pariah Rock; Panmawaddi Flats and Elbow Shoal.

The Port Officer of Bassein reports as follows:—

A tripod beacon, red, with white cage, 16 feet above high-water, has been placed on the Wolf Rocks near the entrance of the river. It should not be approached from the eastward within 3 cables.

The Long Sand is now an island with trees on it.

The channel north of Ridge Shoal has closed, except for very small vessels. The two ends of this shoal are marked by red buoys.

Pariah Rock has been marked by a conical red buoy.

The Panmawaddi Flats extend right across the river, and there is only 3 fathoms water over the deepest part at low-water.

A tripod beacon has been erected on Cockatoo Rocks to act as a tide-gauge showing the water on the flats.

The Elbow Shoal is now a middle ground.

Its western edge is marked with a conical black buoy.

See Admiralty Charts 821, 831, 834; variation 3°E.

ARABIAN SEA.

MALABAR COAST.

Regarding Jali Kund or Hog Island, Dart Rock, and Hawkin's Reef.

THE following information has been received from Commander Alfred Carpenter, R.N., in charge of the Marine Survey of India:—

Jali Kund or Hog Island is shown on the present Admiralty Chart 744 one mile west of its true position with regard to Pigeon Island and the neighbouring peaks.

Dart Rock, the position of which depended on Hog Island, has been lately examined by Her Majesty's Indian Marine Steamer *Investigator* and found to be one mile nearer the shore than formerly stated. It lies with the following bearings and distances :—

Modeshwar Point	...	...	E by N 2 miles.
Hog Island	...	...	S S E 5$\frac{1}{7}$ miles.
Pigeon Island	...	...	S W by W $\frac{1}{4}$ W 8$\frac{4}{10}$ miles.

Depths of 6 to 6$\frac{1}{2}$ fathoms are found round it.

Hawkin's Reef is the extension of a rocky patch a mile north of Modeshwar Point. From the extreme of the patch Modheswar Point bears S E $\frac{1}{2}$ S distant 1$\frac{1}{16}$ miles. It can be cleared by keeping Hog Island open to westward of the largest *rocky islet S W of Modeshwar*.

All bearings are magnetic; variation nil; see Admiralty Charts 744, 827, 2,737.

Educational Prospectus.

THE Calcutta Medical College Session, 1888-89, will commence on the 23rd June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before that date.

2. Ten free presentations will then be awarded. These are given to students according to their relative position in the University, B.A., B.L., and F A. Examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled as a matriculated student who has not previously passed the First Arts Examination of the Calcutta University, or a preliminary Arts Examination of the United Kingdom recognised by the British General Medical Council.

4. All matriculated students of the College shall pay Rs. 15 on entrance, Rs. 30 for the summer session on the 23rd June, and Rs. 30 for the winter session on 1st November of each year.

Mahomedan students are required to pay Rs. 15 on entrance and one-third fee, *i.e.*, Rs. 10 per session. The remaining two-third fees are charged to the Moshin Fund.

5. Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following :—

	Rs.
For a single course of lectures on each subject in one year	40
For six months' attendance in each department of hospital practice	60

6. Any matriculated student who leaves the College before completing his University course, with the object of continuing his studies at a Medical School in Europe, may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

7. Any person not being a matriculated student of the College, who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject, on payment, in advance, of fees at the rates fixed in rule 5. If he has passed the Entrance Examination of the University, he shall receive certificates of attendance at lectures. If he has not passed the Entrance Examination he shall receive no class certificates.

8. College scholarships, prizes and certificates of honour are open for competition only to matriculated students of the College, Hospital Apprentice and Female Certificate classes.

NOTICE BY THE ACCOUNTANT-GENERAL, BENGAL.

SUPPLY BILLS.

NOTICE is hereby given that supply bills for sums of Rs. 500 and above in even rupees are usually obtainable on the treasuries named below at the rates of premium shewn.

Any person desiring to obtain a supply bill should send to the Bank of Bengal, Calcutta, a written application containing the following information—(1) his own name and address; (2) the name of the person to whom payment is to be made; (3) the treasury on which the bill is to be granted; and (4) the amount for which the bill is to be granted. With this application the cost of the bill (the amount plus the premium) should be paid into the Bank. If payment by telegram is desired (but this is admissible only in cases in which the name of the payee has been previously registered in the Accountant-General's office), the fact should be stated in the application, and an additional rupee paid with the cost.

The Bank of Bengal will, if the amount is available at the treasury named, receive the money tendered, and grant a receipt, returning the application therewith. The receipt and the application should then be sent to the Accountant-General's office, by which the bill will be granted.

The Bank of Bengal will be advised by the Accountant-General on the 1st and 16th of each month of the amounts available at the several treasuries, and will receive the amounts tendered by the first comers till those amounts are exhausted.

If the Bank refuses to receive any sum tendered owing to the amount not being available at the treasury, the application will be retained by the Bank and forwarded by it to the Accountant-General, who will advise the Bank and the applicant if the amount can be made available.

LAND SALE NOTICES.

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below, to the undermentioned estate situate in the district of Hooghly, will be put up to sale at the Hooghly Collectorate on Thursday, the 28th June 1888, corresponding with 15th Assar 1259.

The purchaser will be subject to the following conditions of sale:—

Conditions of Sale.

1*st*.—The estate to be sold to the highest bidder above the upset price. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in the estate will be transferred to him, subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and the purchaser to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

H. PHILLIPS, Officiating Collector.

NOTICE is hereby given that, under Government orders No. 1250—500L.R., dated the 13th April 1886, the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Furreedpore, will be put up to sale at the Furreedpore Collectorate on Tuesday, the 26th June 1888, corresponding with 13th Ashar 1295 (B.S.), subject to the payment of Government revenue entered in column 5.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1*st*.—The estates to be sold to the highest bidders above the upset price. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them subject to the revenue fixed in perpetuity.

2*nd*.—The sales to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedules of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sales, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale or sales to be cancelled (the sum deposited being forfeited to Government), and the estate or estates to be again put up to sale at the risk of the defaulting purchaser or purchasers, after issue of advertisements as in the case of original sales.

NOTICE.

IT is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution for that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st April 1888, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

REVIEW OF THE TRANSACTIONS OF THE FINE FUND OF THE PROVINCIAL STATE RAILWAYS FOR 1887-88.

No. 1951R.A.

GOVERNMENT OF BENGAL—PUBLIC WORKS DEPARTMENT.

RAILWAY.

Dated Calcutta, the 9th June 1888.

READ—

Government of India, Financial Department, Resolution No. 427, dated 28th June 1880.

Letter No. 375, dated 7th May 1888, from the Manager, Eastern Bengal State Railway.

Letter No. 1775, dated 9th May 1888, from the Manager, Nalhati State Railway.

Letter No. 3471, dated 10th May 1888, from the Manager, Tirhoot State Railway.

Read also—

Resolution No. 1459R.A., dated 29th June 1887.

Observations.—On the 1st April 1887, the Eastern Bengal State Railway came under the control of this Government, and for special and economical reasons the Northern Bengal, Kaunia and Dhurlla and Dacca State Railways were placed under the management of the Eastern Bengal State Railway. Later on the portion of the Assam-Behar Section of the Assam-Behar State Railway was also placed under the same management, the whole being considered as one Railway system, and the review of the Fine Fund of the Eastern Bengal State Railway System comprises therefore the transactions on all the Railways mentioned above.

2. The review for all lines for the year 1887-88 have been received, and are summarized in the following table :—

Railways.	Receipts.				Expenditure.			Balance at end of 1887-88.
	Balance on 1st April 1887.	Fines.	Interest.	Total.	Disbursements.	Refunds.	Total.	
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.

Nalhati State Railway	178 6 3	50 3 6	4 15 1	233 8 9	129 9 3	.....	129 9 3	103 15 6

3. Under the head of Expenditure the principal disbursements were as follows :—

Eastern Bengal State Railway.—Institute Rs. 1,580 ; Schools Rs. 2,050 ; Volunteering Rs. 1,270-11-3 ; Amusements Rs. 450 ; Assistance to employés Rs. 2,334-6.

Tirhoot State Railway.—Institute Rs. 610 ; Compensation Rs. 252 ; Amusements Rs. 150 ; Schools Rs. 25 ; Medicines Rs. 48-6 ; Volunteering Rs. 200.

Nalhati State Railway.—Schools Rs. 77 ; Institute Rs. 52 ; Dispensary Re. 0-9-3.

Resolution.—The reduction of the balances of the funds still continues, it being borne in mind that the present employés should benefit, as far as possible, from the receipts that have accrued during their term of service. The balance of the fund on the Eastern Bengal State Railway System still seems, however, unnecessarily high. Rupees 1,078-3-6 was expended on the Eastern Bengal State Railway in supplying menial and line staff employed on out-door work, and who have consequently to undergo exposure, with blankets ; Rs. 356-4 have been advanced on loan to employés to assist them in sending their children to school ; and Rs. 142 have been advanced to the Volunteer Prize Fund : the two latter amounts are recoverable.

Order.—Ordered that a copy of this Resolution be forwarded to the Government of India, in the Public Works Department, and to the Managers of the Bengal Provincial Railways for information, and that the Resolution be published in the *Calcutta Gazette.*

By order of the Lieutenant-Governor of Bengal,

E. J. MARTIN,

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, ıd from observations made at 6h. 10h. 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the ıermometers are verified, and the readings have been corrected to a standard constructed and verified at the ew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet ıove the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, rmerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the eteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the ne ne period for the last 30 ; the humidity of the atmosphere is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The r are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the y stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

CALCUTTA, *the 19th June* 1888.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 15TH OF JUNE 1888.

THE meteorological conditions obtaining over the province at the close of the previous week were those which characterise the hot weather in Bengal, though the winds blowing were decidedly more moist than usual. Moderate and fairly general rain had been received in the week ending the 8th instant, but the rainfall can scarcely be said to have been brought up by the true south-west monsoon current; for the wind systems had been more like the hot weather distribution, than that characteristic of the true rainy season. On the first day of the present week pressure fell rapidly in South-East Bengal, and there was a distinct tendency to cyclonic circulation of winds. A moist south-easterly wind current however prevailed over a large part of the province, though northerly winds were reported at some of the stations in Behar, Chutia Nagpur and West Bengal. Showers on this day were received generally over the whole of Bengal and Assam On the following day conditions had not changed very largely, but the low pressure of the previous day in South-East Bengal had developed into a distinct barometric depression, the centre of which was probably over the Sunderbans, and which was accompanied by a distinct cyclonic circulation of winds, though their velocities were small. On this day also showers were reported, but they were far less numerous than on the preceding day, and they were to a considerable extent confined to South East Bengal and Orissa. On Monday, the 11th, the very feeble depression had advanced inland and was near Jessore; on this day rainfall was to a great extent absent over the province, and temperature commenced to rise rapidly. On the 13th pressure continued low over the central parts of the province, and there was a fairly distinct circulation of winds round it Dry westerly winds set in at the western stations, though they were north-westerly at the northern stations and south-westerly at the southern stations; while elsewhere winds were south-easterly and easterly. With the setting in of these westerly winds, temperature again rose rapidly at the western stations, and the mean temperature varied from 5° to 10° above the normal at many of the western stations. On the 14th a very distinct area of low pressure existed in Central Bengal and the lowest pressure in the whole province was reported from Krishnaghur, while winds showed a distinct cyclonic circulation round it. Again, the western and south-western stations were affected by the hot dry winds blowing in a westerly and north-westerly direction, and on this day most excessive temperatures were recorded, the mean temperatures at the western stations being about 8° to 10° above the normal for the day. On the 15th the area of low pressure had moved a little in a westerly direction, and it was near Burdwan, and with the similar wind distribution which obtained again, most excessive temperatures were reported. With the formation of the feeble depression over the centre of the province, moist southerly winds continued to flow in over the east of the province, and fairly general rain set in on the 13th and 14th in East and North Bangal, though the remainder of the province was practically rainless from about the 10th.

The principal facts of the meteorology of the past week have therefore been a most excessive temperature over the greater part of the province, particularly in the western and south-western districts, unusually low pressure, and absence of rain from most districts. The weather has been in fact of a most unusual character, and instead of the south-west monsoon current flowing over Bengal at this time and giving abundant rain as it normally should do, the greater part of the strength of the monsoon seems to have been deflected in an easterly direction, and it has thus given exceptionally heavy rain at many of the stations in Burma.

Pressure—Has been generally below the normal and, as stated above, a low-pressure area has existed over the south of the province for some days. In fact the mean pressure for the week at many of the southern stations has been nearly a tenth of an inch below the normal, and thus at Saugor Island the defect has been 0·099 inch, at Chittagong 0·095 inch, and at Dacca 0·096 inch. At the inland stations the defects have generally been considerably smaller than this, and for the whole province the mean pressure has been in defect of the normal by only 0·064 inch. In Assam, pressure has been below the normal by 0 089 inch.

Temperature.—As stated before, the past week has been noticeable on account of the high temperature registered on some days The temperature generally was highest on Thursday, the 14th, and the mean temperature of the 24 hours from 10 A.M of the 14th to 10 A M of the 15th was above the normal of the day by the following amounts: at Balasore 16 1°, at Midnapore 13·9°, at Calcutta 10 5°, and at Burdwan 10·1°. The maximum temperature recorded at the Alipore Observatory (Calcutta) on the 14th was 106·8°. The highest previously recorded temperature since the establishment of the observatory in 1874 has been 105·6° on April 14th, 1884, the next highest was 105·5° on April 15th, 1885, so that the temperature on this day was certainly 1·2° higher than any in Calcutta of which there are thoroughly reliable records, or rather records comparable with those made at the present time. A higher temperature than this even was recorded on this day, the 14th of June 1888 at the Chowringhee Observatory, and the maximum thermometer indicated no less than 107·2°. Very high maximum temperatures were also recorded at other stations:—thus Dehree registered 114·5° on the 14th, Gya 113 6° on the 14th, Balasore 113° on the 15th, Midnapore 112 4° on the 14th and several other stations temperatures above 110°. The mean temperature for the whole week has been nearly 4° in excess of the normal in Chutia Nagpur, Orissa, and South-West Bengal, about 2° above it in East Bengal and South Behar, while temperature has been nearly normal in North Bengal and North Behar. For the whole province of Bengal temperature has been more than 2° above the normal. In Assam temperature has been 0 4° in excess of the normal.

Rainfall,—The only rainfall of importance has been in East and North Bengal, which have received an average of about one and-a-half inches; North Behar and Orissa have received an average fall of half an inch; and South-West Bengal about a third of an inch. South Behar and Chutia Nagpur have received average falls of less than two-tenths of an inch. In all cases, therefore, rainfall has been very largely below the normal.

In Assam the following rainfalls have been recorded during the week:—Silchar 4·79 inches, Sibsagar 1·08 inches, and Dhubri 0 05 inch.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 15th of June 1888:—

MEMORANDUM.

THE birth and death returns of the principal Municipalities in Bengal yield the following results for the week ending 2nd June 1888 :—

1. The ratios per mille of births and deaths for the period above referred to stand at—births 15·8 and deaths 19·6; the corresponding figures of the preceding week ending 26th May, being 18·4 and 22·6 respectively, indicating a falling off in the registration of both the events.

2. In the following Municipalities births and deaths are reported to have been recorded at the highest rates :—

Births.	Ratio per *mille.*	*Deaths.*	Ratio per *mille.*
Bhagulpore	37·	Darjiling	32·6
Monghyr	32·5	Gya	32·2
Gya	30·8	Chittagong	30·5
		Suburbs of Calcutta	29·6

3. In comparison with the results of the preceding week, there was a diminution of mortality, to a more or less extent, from all the diseases, excepting small-pox, *vide* figures given below :—

	Ratio per *mille* during the weeks ending—	
	2nd June 1888.	26th May 1888.

Increase. Tons.

Cotton piece-goods—
(1) European ... 37

This increase is due to steamer service between Jeaganj and Calcutta being stopped for want of sufficient water in the river.

Grains—
(2) Rice ... 105

This increase is due partly to the steamer service being closed, and partly to greater despatches from the intermediate stations owing to good crops and favourable demands.

Oils—
(3) Others ... 23

This increase is due to steamer service being closed for want of sufficient water in the river.

Railway plant and rolling stock ... 323

This increase is due to greater materials being carried during this year.

Salt ... 108

This increase is due to steamer service being closed for want of sufficient water in the river.

Oilseeds—
(1) Linseed ... 31
(2) Mustard and rape ... 77

The increase under these heads is due to favourable demand.

Stone and lime ... 13

This increase is due to greater demands for building purposes.

Sugar—
(2) Undrained ... 32

This increase is due to favourable market rate.

Tobacco ... 17

This increase is due to fair market rate.

Decrease.

Coal ... 301

This decrease is due to previous stock not being exhausted.

Jute—
(2) Gunny bags and cloths ... 14

This decrease is due to less demand.

Grains—
(1) Wheat ... 23

This decrease is due to dull market.

NOTIFICATION.

The 25th June 1888.—In continuation of the notification, dated the 28th September 1886, published at page 1029 of the *Calcutta Gazette* of the 29th idem, the following extract of a letter No. J. & P. 579-88, dated the 20th April, 1888, with enclosure, from the Secretary to the Trustees of the Gilchrist Educational Trust, is published for general information.

P. NOLAN,
Secretary to the Govt. of Bengal.

Extract of a letter No. J. & P. 579-88, *dated the 20th April*, 1888, *with enclosure, from the Secretary to the Trustees of the Gilchrist Educational Trust.*

THE time for the withdrawal of the Scholarship has now expired, but the Gilchrist Trustees not desiring to sever their connection with the Educational advancement of India as expressed in the communication referred to, have just decided (pending further possible consideration and also the possible receipt of important information from India which might guide them to such alteration in the terms of the Scholarship as might increase its popularity and usefulness) to continue the same for the present and until further notice on the same conditions as heretofore (copies of which conditions I forward herewith). The Scholarship will therefore be offered again on the result of the Matriculation Examination of the University of London, which, I presume, will be held as usual in India in January next 1889, and I have to request that you will cause this information to be forwarded to the Government of India with the least possible delay that candidates for the Scholarship may have time to prepare for that examination.

Conditions for Scholarships instituted by the Gilchrist Educational Trust for the benefit of Natives of India and Ceylon.

[These scholarships, like the degrees and other Academical Rewards of the University of London, are open to women upon exactly the same conditions as to men.]

A Scholarship of the value of £150 per annum, and tenable for four years, will be annually awarded to a Candidate born in India or Ceylon who shall become eligible by

Competitive Examination, and shall be desirous of prosecuting a Course of Academical Study in Great Britain, with a view to graduation in one of the Faculties of Arts, Science, Law, or Medicine in the University of London, under the following conditions :—

1. Of the parents of each Candidate, one at least shall not be of pure European descent.

2. Every Candidate must furnish proof satisfactory to the Local Authorities that he has completed his sixteenth year, and that his age does not exceed twenty-two years.

3. Every Candidate must furnish proof satisfactory to the Local Authorities that in regard to personal character and social position he is qualified to be admitted to competition for a scholarship.

4. Candidates approved by the Local Authorities shall present themselves at the January Matriculation Examination of the University of London, which will be held simultaneously under the direction of Government Sub-Examiners at the three Presidential Capitals of India, and at the Royal College, Colombo, commencing on the second Monday in January.

5. The answers of the Candidates, approved as aforesaid, will be forwarded, through the Governments of India and Ceylon respectively, to the Registrar of the University, who will cause them to be reviewed by the Examiners, and who will forward their Report to those Governments, to be by them announced to the Candidates.

6. The Scholarship shall be awarded to the Candidate whose aggregate of marks stands highest ; provided that he passes either in the Honours or in the First Division. Such Candidate shall have his choice whether he will pursue his curriculum of study in the University of Edinburgh, or in University College, London.

7. The successful Candidate will be expected to arrive in London, and to present himself to the Secretary of the Gilchrist Trust, not later than the first week in the October following his appointment. If a Native of India, he will be provided by the Government of India with a free passage to England.

8. The Scholarship shall be considered as commencing from the 1st of July following the award of the Examiners ; and shall be payable in quarterly instalments on the first days of October, January, April and July.

9. Each Scholar shall attend in every Session at least Three Courses of Lectures at the Institution in which he studies ; and shall transmit to the Secretary of the Gilchrist Trust at the conclusion of each Session, a Certificate from each of the Professors whose Lectures he has attended, stating that his diligence and conduct have been satisfactory. Should he not be able to produce such a Certificate, or should he be proved guilty of discreditable conduct elsewhere, he shall be considered to have forfeited his claim to the remaining instalments of his Scholarship.

10. Each Scholar shall be expected to present himself at the Intermediate Examination in one of the Faculties of Arts, Science, or Law, or at the Preliminary Scientific M.B Examination in the University of London, before the termination of the Second (Academical) Year* from the commencement of his Scholarship, unless excused from doing so by the Trustees ; and if he do not so present himself (unless by permission of the Trustees), or if he fail to pass, he shall be considered as forfeiting his claim to the remaining instalments of his Scholarship. After having passed this first Examination, he will be expected to pursue his studies with the view of presenting himself at the next Examination within Two (Academical) Years.

11. The Trustees will provide for the return passage of every Indian Scholar who shall succeed in obtaining his degree in the University of London. For every Indian Scholar who may fail to obtain his degree, a return passage will be provided by the Government of India.

12. The foregoing scheme shall be subject to revision from time to time ; the Trustees reserving to themselves the power of altering the conditions of the Scholarships, or of altogether withdrawing them, if they deem it expedient to do either. But no change will be made in such a manner as to affect the interests of Candidates already appointed to scholarships.

* Thus a candidate whose scholarship commences on the 1st of July 1884 would be considered as having fulfilled this condition if he pass the Intermediate LL.B. Examination in January 1886, or the Intermediate B.A., the Intermediate B.Sc., or the Preliminary Scientific M. B. Examination in the following July.

ERRATUM.

The 26th June 1888.—In the Notification No. 61Mne., dated the 19th June 1888, published at page 574, Part I of the *Calcutta Gazette* of the 20th idem, regarding the appointment of Colonel A. LeMessurier as a Commissioner for making Improvements in the Port of Calcutta, *for* the words "section 13 of the Act" *read* "section 13 of Act V (B.C.) of 1870."

NOTIFICATION No. 66Mne.

The 26th June 1888.—In supersession of the Notification No. 27Mne., dated the 18th April 1888, published at page 344, Part I of the *Calcutta Gazette* of the 25th idem, and under the provisions of section 20 of Act IV (B.C.) of 1880 as amended by section 4 of Act I (B.C.) of 1881, the following amendment proposed by the Commissioners for making Improvements in the Port of Calcutta is published for general information:—

Present Rule.

No. 7.—Masters of vessels shall furnish special notice to the shed officers before landing packages containing articles liable to ignition or explosion, or which are otherwise dangerous.

Proposed Rule.

MASTERS of vessels shall furnish special notice to the shed officers before landing packages containing articles liable to ignition or explosion, or which are otherwise dangerous. Small consignments of small arms, safety cartridges and safety fuze, brought as part of a general cargo, and which have been placed on board the vessel while lying in dock at port of shipment, may be landed at the jetties, provided that the consignees are in attendance with all necessary papers for clearance and delivery when the vessel is ready to discharge the consignment. No such cartridges and fuze shall be stored in the sheds, and if the consignees are not in attendance to take delivery when the vessel is ready to discharge, the consignment shall be discharged by the ship into boats and sent to the Moyapore Magazine.

NOTICE TO MARINERS—(No. 27.)

INDIA—SOUTH COAST.

CEYLON—SOUTH-EAST COAST.

Attention called to the new editions of certain Admiralty Charts.

THE following Notice to Mariners (No. 139 of the year 1888), issued by the British Admiralty, is republished:—

The attention of Mariners is called to the new editions of Admiralty Charts Nos. 813 and 2031, giving the results of the re-survey of the south-eastern coasts of Ceylon from the Little Basses to Trincomali by the Officers of H. M. S. *Egeria*, under the command of Captain P. Aldrich, 1887.

The offshore soundings now given are of such a nature as to render navigation perfectly safe in the thickest weather, if the lead is attended to, and the ship is not allowed to come into less than 20 fathoms of water.

The disasters which have taken place from time to time on this coast, supposed to have been on dangers situated some miles from the shore, were probably due to difficulties in fixing the true position; difficulties caused by the absence of soundings, and also by the fact that some of the mountain peaks in the interior, used as landmarks, were not in their true positions on the former charts, an inaccuracy now remedied from the trigonometrical survey of Ceylon, carried out by the Surveyor-General of that Colony.

Charts Nos. 828 and 70 will be shortly corrected for this new information.

Note.—Mariners navigating on the coast of Ceylon should consult the Bay of Bengal Pilot, 1887, pages 378—390, wherein is contained a monthly statement of Currents and Winds on the coasts of Ceylon, as experienced in 100 voyages round that island by Mr. Thomas Robson, Commander of the Colonial Government Steamer *Serendib*, during the five years, July 1881 to September 1886.

BAY OF BENGAL.

ANDAMAN ISLANDS.

Depth of water on the three Coral Banks off the West Coast.

THE following information has been received from Commander Alfred Carpenter, R. N., and is the result of a late Survey by H. M. I. M. S. *Investigator*, variation 2° E. See Admiralty Charts 825, 514, 70, 830; also Bay of Bengal Pilot, 1887:—

The Coral Banks.—The three large banks off the west coast of the Andaman Islands are composed of dead Coral and Sand. On West Coral Bank, the northern one, the least depth is 6 fathoms near the centre; on Middle Coral Bank the least depth is 23 feet rock where the rocky strata crops up through the Sand and Coral; also near the centre of the bank; and on South Coral Bank the least water is 6 fathoms.

The banks are safe to cross in fine weather; the water is very clear and looks much shoaler than it really is.

PORT BLAIR.

Northern Red Buoy has been moved one cable west of its old position.

The northern red buoy limiting the reef off the Port Officer's Jetty has been moved one cable west of its old position, and now lies 4 cables N. N.-W. ½ W. of the wooden pier end.

BURMA COAST.

KYOUK-PHYOU HARBOUR—ARRACAN.

Two dangerous shoals, a mile west of Saddle Island.

From comparison of old charts, and by information lately gathered, there appear to be two dangerous shoals which break in heavy weather a full mile west of Saddle Island. H. M. I. M. S. *Investigator* struck shoal water 4½ fathoms, hereabouts in 1885, as she was leaving Kyouk-Phyou, after finishing the survey of the actual harbour. Vessels should not pass eastward of the Irrawaddy shoal.

BASSEIN RIVER—GULF OF MARTABAN.

Placing of a red tripod beacon with white cage on the Wolf Rocks near the entrance of the river; and erection of a tripod beacon on Cockatoo Rock; also regarding Long Sand; Ridge Shoal; Pariah Rock; Panmawaddi Flats and Elbow Shoal.

The Port Officer of Bassein reports as follows :—

A tripod beacon, red, with white cage, 16 feet above high-water, has been placed on the Wolf Rocks near the entrance of the river. It should not be approached from the eastward within 3 cables.

The Long Sand is now an island with trees on it.

The channel north of Ridge Shoal has closed, except for very small vessels. The two ends of this shoal are marked by red buoys.

Pariah Rock has been marked by a conical red buoy.

The Panmawaddi Flats extend right across the river, and there is only 3 fathoms water over the deepest part at low-water.

A tripod beacon has been erected on Cockatoo Rocks to act as a tide-gauge showing the water on the flats.

The Elbow Shoal is now a middle ground.

Its western edge is marked with a conical black buoy.

See Admiralty Charts 821, 831, 834; variation 3°E.

Regarding Jali Kund or Hog Island, Dart Rock, and Hawkin's Reef.

THE following information has been received from Commander Alfred Carpenter, R.N., in charge of the Marine Survey of India:—

Jali Kund or Hog Island is shown on the present Admiralty Chart 744 one mile west of its true position with regard to Pigeon Island and the neighbouring peaks.

Dart Rock, the position of which depended on Hog Island, has been lately examined by Her Majesty's Indian Marine Steamer *Investigator* and found to be one mile nearer the shore than formerly stated. It lies with the following bearings and distances:—

Modeshwar Point	...	...	E by N 2 miles.
Hog Island	...	...	S S E 5½ miles.
Pigeon Island	...	...	S W by W ½ W $8\frac{4}{10}$ miles.

Depths of 6 to 6½ fathoms are found round it.

Hawkin's Reef is the extension of a rocky patch a mile north of Modeshwar Point. From the extreme of the patch Modheswar Point bears S E ½ S distant $1\frac{1}{10}$ miles. It can be cleared by keeping Hog Island open to westward of the largest *rocky islet S W of Modeshwar.*

All bearings are magnetic; variation nil; see Admiralty Charts 744, 827, 2,737.

NOTICE BY THE ACCOUNTANT-GENERAL, BENGAL.

SUPPLY BILLS.

NOTICE is hereby given that supply bills for sums of Rs. 500 and above in even rupees are usually obtainable on the treasuries named below at the rates of premium shewn.

Any person desiring to obtain a supply bill should send to the Bank of Bengal, Calcutta, a written application containing the following information—(1) his own name and address; (2) the name of the person to whom payment is to be made; (3) the treasury on which the bill is to be granted; and (4) the amount for which the bill is to be granted. With this application the cost of the bill (the amount plus the premium) should be paid into the Bank. If payment by telegram is desired (but this is admissible only in cases in which the name of the payee has been previously registered in the Accountant-General's office), the fact should be stated in the application, and an additional rupee paid with the cost.

The Bank of Bengal will, if the amount is available at the treasury named, receive the money tendered, and grant a receipt, returning the application therewith. The receipt and the application should then be sent to the Accountant-General's office, by which the bill will be granted.

The Bank of Bengal will be advised by the Accountant-General on the 1st and 16th of each month of the amounts available at the several treasuries, and will receive the amounts tendered by the first comers till those amounts are exhausted.

If the Bank refuses to receive any sum tendered owing to the amount not being available at the treasury, the application will be retained by the Bank and forwarded by it to the Accountant-General, who will advise the Bank and the applicant if the amount can be made available.

Monghyr Collectorate, the 16th June 1888. HERBERT MOSLEY, Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Sarun will be put up for sale at the Collector's office of that district at Chupra, on 16th July 1888, corresponding with 23rd Asadh 1295F (Monday), for arrears of revenue and other demands due on 28th March 1888, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from sale:—

Calcutta, the 26th June 1888. (1619—1) G. H. SIMMONS, Traffic Manager.

Notification.

THE following revised schedule of rates and charges on goods passing over the Inland Vessels' Wharves, having been approved by His Honour the Lieutenant-Governor of Bengal, is published under the provisions of section 65 of Act V (B.C.) of 1870, for general information.

By order of the Commissioners,

R. A. DONNITHORNE,
Secretary, Port Commissioners.

The 6th June 1888.

Schedule of Rates and Charges on the Inland Vessels' Wharves.

Toll charge. A rate of two annas per ton will be levied on all goods landed from or shipped on vessels, not being seagoing vessels, using the above wharves.

Holiday fees. In addition to the foregoing charge, on all goods landed on Sundays and authorized holidays, an extra fee, amounting to 25 per cent. of the ordinary charge, will be levied.

Overtime fees. For work done before 6 A.M. or after 6 P.M. a charge of one rupee per hour will be made in addition to the tonnage rate.

Tonnage schedule. As regards the following classes of goods, the ton shall be reckoned at the respective weights and measurements hereunder appended to each class of goods, that is to say—

NOTICE.

IT is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution for that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st April 1888, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.	With postage.
For the Calcutta Series ...	Rs. 10 0	Rs. 12 8
" each of the Madras, Bombay, and Allahabad Series ...	" 6 0	" 7 0
" a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	.....	" 2 0
" a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*) ...	.....	" 1 0

RESOLUTION ON THE ADMINISTRATION OF THE JAIL DEPARTMENT FOR THE YEAR 1887.

RESOLUTION.

JAILS.

Dated Darjeeling, the 16th June 1888.

READ—

The Report on the Administration of the Jail Department for the year 1887.

Read also—

The Reports for the years 1885 and 1886, and the orders of Government recorded thereon.

Dr. Lethbridge was in charge of the Department throughout the year. The annual report has again been submitted with commendable promptitude. Dr. Lethbridge has also considerably cut down the dimensions of the report by careful attention to the orders of Government. The report for 1887 only fills 35 pages, while that for 1884 required 81 pages. The report for 1886 filled 44 pages.

The general results are very satisfactory. It must, however, be borne in mind that all the statistics are affected by the releases and remissions

granted on the celebration of the Jubilee, and to a certain extent this fact affects all comparisons with the figures of previous years. The death-rate fell to 33·1 per mille, the lowest on record, against 37·2 in 1886, and an average of 59·2 since 1863. The number of whippings was only 266 against 396 in 1886 and a yearly average of 364·25 from 1882 to 1885. The number of escapes fell to 13 against 17 in 1886, and a yearly average of 25·4 from 1881 to 1885. The number of whippings and escapes are the lowest on record. Making every allowance for the effect on these figures of the Jubilee releases, they testify to the excellent administration of the Department.

2. *Judicial Statistics.*—The total jail population at the beginning of the year (14,629) was reduced by the 31st December to 13,210, the lowest figure on record, and in great measure the result of remissions granted on the Jubilee day. The daily average population of all classes of prisoners decreased from 14,805·90 in 1886 to 12,250·36 in 1887. This decrease is confined to convicts and civil prisoners, there being an increase of 63·83 in the daily average of under-trial prisoners, due to the unsatisfactory fact of their longer detention under trial. The number admitted was actually less than in 1886. The following table shows the figures for convicts only for the last ten years:—

	1878.	1879.	1880.	1881.	1882.	1883.	1884.	1885.	1886	1887.

Daily average number of prisoners	17,274	17,238	16,673	15,506	14,801	13,711	13,697	13,757	13,504	10,908

The number of direct admissions (29,942) is lower than in any year except 1883 (29,763), and is a satisfactory proof that there was no appreciable increase of crime in consequence of the Jubilee releases. The balance at the end of the year (11,950) and the daily average number (10,908) are the lowest on record, owing to the releases and the small number of admissions. The proportion of the population confined in central jails rose from 53·38 to 59·55 per cent., a very satisfactory increase, as the conditions of jail life are more penal and the prisoner's labour is more valuable from an industrial point of view in central than in district jails. District jails held 37·61 per cent of the population, and subsidiary jails 2·84 per cent. The corresponding figures for 1886 are 53·38, 44·60 and 2·00.

3. 30,760 prisoners were released against 30,696 in 1886. While in 1886, 27,125 persons were released on expiry of sentence, the figures for 1887 are 21,328. On the other hand the number released on other grounds rose from 27 to 6,484. These figures are accounted for by the releases at the time of the Jubilee. The number released on appeal has steadily increased from 1,384 in 1882 to 1,903 in 1887. This point will be dealt with in considering the crime report. The decrease in the number of releases under the head "remission rules," 1,017 against 1,674 in 1886, is due to the fact that a large number of prisoners who would otherwise have been released under the mark system, some time in 1887, were set free on the Jubilee day.

4. The number of convicts transported beyond seas rose from 468 in 1885 and 668 in 1886 to 797 in 1887. The attention of the Government of India has been drawn to the fact that some of the Local Governments have relaxed too far the new rules of selection. In one case from another province the prisoner was almost blind of both eyes. The number of Bengal prisoners transported was 168. The corresponding figures for 1885 and 1886 were 78 and 137 respectively. Executions rose from 17 in 1886 to 30 in 1887.

5. The number of Burmese prisoners confined in Bengal Jails was increased by 20 during 1887, bringing the total to 284. The Government of India

has now under consideration a scheme for granting tickets-of-leave to this class of prisoners. Some such scheme is required, as they will otherwise become a source of danger from their increasing numbers in the less secure district jails. They mostly enjoy excellent health in Bengal. Their conduct was generally good, but the number of offences increased from 174 to 450, of which 178 related to work. This is still far below the average reported in the case of other prisoners. One of them committed a very serious assault on a convict officer. Two Burmese prisoners escaped through the carelessness of the Pubna Jail officials. Of the three men who escaped in 1886, one was recaptured. He states that his companions both died on the way back to Burma, one was drowned, and the other killed in the Chittagong Hill Tracts.

6. The figures given by the Inspector-General show that 57·34 per cent. of the persons admitted in 1887 were Hindoos, 38·61 per cent. Mahomedans, and 1·27 per cent. Christians. There were also 168 Buddhists and 665 of other religions. The figures differ very little from those for last year. The percentage of Christians fell from 1·89 in 1886 to 1·27 per cent in 1887. The number of juveniles admitted rose to 296 from 273 in 1886. The Reformatory Schools at Hazaribagh and Alipore continue to do excellent work.

7. Of the prisoners admitted 18,686, or 62·40 per cent., were sentenced to imprisonment for three months and less. The corresponding figures for 1886 were 19,729, or 64·3 per cent. The number sentenced to simple imprisonment fell from 2,340 to 2,216. The number of juvenile offenders sentenced to whipping fell to 377 from 448 in 1886. The number of other judicial whippings has fallen continuously from 1,965 in 1885 to 1,373 in 1887.

8. The number of female prisoners admitted into jail fell from 1,573 in 1885 to 1,391 in 1886 and 1,280 in 1887. The rules to prevent solitary confinement where there happens to be only one female in jail proved successful. 351 women were released on the Jubilee day, leaving only 78 women in the Bengal Jails. A female ward has been opened in the Presidency Jail to obviate legal difficulties connected with the jurisdiction of the High Court.

9. The number of reconvicted prisoners admitted into jail decreased from 3,589, or 11·70 per cent. of admission, in 1886, to 3,472, or 11 60 per cent., in 1887. New rules were introduced in February 1887 regarding the identification and classification of habitual offenders, and until they have been working some time it will be impossible to draw comparisons of any value with the figures of previous years. The jails showing the largest number of reconvictions were Calcutta 402 or 22·56, Monghyr 149 or 22·10 and Alipore 139 or 12·16 per cent. In Monghyr the percentage rose from 19·59 in 1886 to 22·10 in 1887. The District Magistrate attributes the increase in Monghyr to the exertions made in tracing the previous history of convicts by the District Superintendent of Police, Colonel Ramsay, to whom these results are very creditable. It is probable that similar exertions in other districts would lead to more accurate results than are now obtained. The number of persons imprisoned for failing to give security for good behaviour rose to 838. Of the prisoners admitted, 86·92 were unable to read and write; 9·66 per cent. were able to read and write a little, and the remainder could read and write well. The figures differ little from those for 1886.

10. The number of under-trial prisoners admitted during the year was 26,240, the lowest number admitted since 1883. The average period of detention was 17·75 days, a longer time than in any other year of this decade. It is impossible to compare the figures for different subsidiary jails, as at present the figures do not distinguish between prisoners in Sessions cases, where the delay is more or less unavoidable, and in Magistrate's cases. Sir Steuart Bayley approves of the proposal of the Inspector-General of Jails to show such cases separately in future. The Lieutenant-Governor has recently given orders that under-trial prisoners in central, district and intermediate jails shall be placed on full diet from the date of their admission, and it is hoped this will have some effect on the health of convicts during the first few months of their confinement. That the health of under-trial prisoners at the time of admission is very bad appears to be proved by the fact that out of 27,120 individuals who spent on an average 17·75 days in jail, 36 should have died. It is scarcely possible to suppose that the

death-rate in these cases should have been affected by the treatment the prisoners received in the subsidiary jails. The accommodation for under-trial prisoners is good and sufficient, except in the Presidency and Gya Jails, where, owing to want of funds, it has hitherto been impossible to deal with this question. The Lieutenant-Governor hopes it may be taken up during the current year. 6 under-trial prisoners escaped during the year (excluding 5 prisoners who escaped and were recaptured during the year), the same number as in 1885 and 1886. 3,054 civil prisoners were admitted during the year against 3,410 in 1886. Out of this number 62 were released on the Jubilee day, the Imperial Government paying their debts to the amount of Rs. 3,632.

11. *Jail buildings.*—Six new subsidiary jails were built at a cost of Rs. 28,953. A female ward, new guard-house and new workshop was provided in the Alipore Jail at a cost of Rs. 33,691. In the Presidency Jail solitary cells and an inner wall were built, costing Rs. 7,383. In Dacca Rs. 18,691 were expended on the new Central Jail. In Buxar Central Jail an upper story to the factory cost Rs. 9,349. The daily average number of prisoners employed on jail buildings was 1,124. The estimated earnings of the prisoners so employed is not shown in any of the financial statistics of this report.

12. *Guards and Escapes.*—The Jail establishment of Bengal was organised in 1878 for a jail population which averaged for 1874, 1875 and 1876 over 21,500 prisoners of all classes, the jail population having steadily since then decreased to its daily average of 12,250 in 1887. On the proposal of the Inspector-General of Jails, the Bhagulpore District Jail was abolished last year, and the reserve guards of 14 district jails, containing less than 100 prisoners, were dispensed with. Towards the close of the year Government sanctioned the reduction of 14 district jails to the new grade of intermediate jails. The result is a net saving of Rs. 44,958 per annum. The Inspector-General of Jails states that, should the jail population not increase, he will recommend a reduction of three more district jails to the intermediate grade.

13. The Lieutenant-Governor is glad to observe that Dr. Lethbridge is able to report a further improvement in the paid warder establishment, especially marked by the improvement in their military training and manner of carrying out their routine duties. Formerly many men resigned on the slightest occasion; now, if a warder is dismissed, he does not hesitate to come all the way to Calcutta to lay his case before the Inspector-General if he sees the least chance of being reinstated. The total number of warders employed in jails and subsidiary jails during the year was 1,707. The number of offences decreased from 3,133 in 1885 and 2,715 in 1886 to 2,359 in 1887. Petty offences were met in 878 cases by warning and extra drill. 405 offences were connected with drill. The number dismissed fell from 216 in 1885 and 128 in 1886 to 103 in 1887. The imposition of small fines is the most common form of punishment, and was adopted in 1,276 cases. Excluding warnings and extra drill, there was barely one punishment per head. It is only by noticing every petty offence that the discipline of men of the class enlisted in the warder establishment can be improved. Where jails are guarded by police whose punishments are not shown in the jail returns, the number of punishments recorded should of course be much smaller. The number of escapes fell to 13, the lowest figure on record. The proportion of escapes to admissions was in 1886 lower in Bengal than in any other province excepting the North-Western Provinces, and it must be borne in mind that the very large number of minor jails greatly increases the difficulty of preventing escapes as compared with other provinces where there are no subsidiary jails. In 1870, 1871 and 1872, when guarding was done by police constables, there were 477 escapes.

Two Burmese prisoners escaped from the Pubna Jail through the discreditable laxity of the Jailor and his subordinates as regards the night-guarding arrangements and the over-confidence reposed in well-behaved, useful prisoners, which enabled one of the Burmese unobserved to file the bar of one of the gratings of a door in his ward and in the ward in which the other Burman slept. The escape from the Dacca Jail was not due to any defect in the system of

guarding, as the prisoner passed out with the men released on the Jubilee day in the place of a man bearing the same name as himself. The small number of escapes testifies to the improvement in discipline of the warder establishment, and is highly creditable to Dr. Lethbridge and his subordinates.

14. *Prison discipline.*—The new rules requiring that the classification of habitual prisoners shall be made by the Court or District Magistrate were in force for some months last year. In some cases the orders were not understood by the Magistrates. In Dinagepore, for instance, 80 persons convicted for the first time were classed as habituals. Again in Bhagulpore, on reclassifying the prisoners of the Bhagulpore Jail, 140 prisoners who had been once convicted were transferred by the Magistrate from the A to the B class, under the idea apparently that all prisoners sentenced for dacoity, robbery, or house-breaking to three years' imprisonment and upwards must be hardened and dangerous criminals, even though never convicted before. In another place, 3 prisoners, sentenced to 20 days for hurt and not convicted before, were classed B. On the other hand, in Monghyr, 8 prisoners, sentenced to six months' imprisonment in default of security to be of good behaviour. were classed as A. Except in these and a few minor cases the rules worked well. The Inspector-General proposes to call shortly for a further report on this subject from Superintendents of Jails. He is requested to bring to the notice of Government any case in which the rules appear to have been flagrantly misapplied. A decrease in the number of habituals was foretold by the Inspector-General in his Administration Report in 1885 as a result of the new rules. It is difficult, however, at present to say whether the slight decrease in their number, noticed in paragraph 9, is due to this cause.

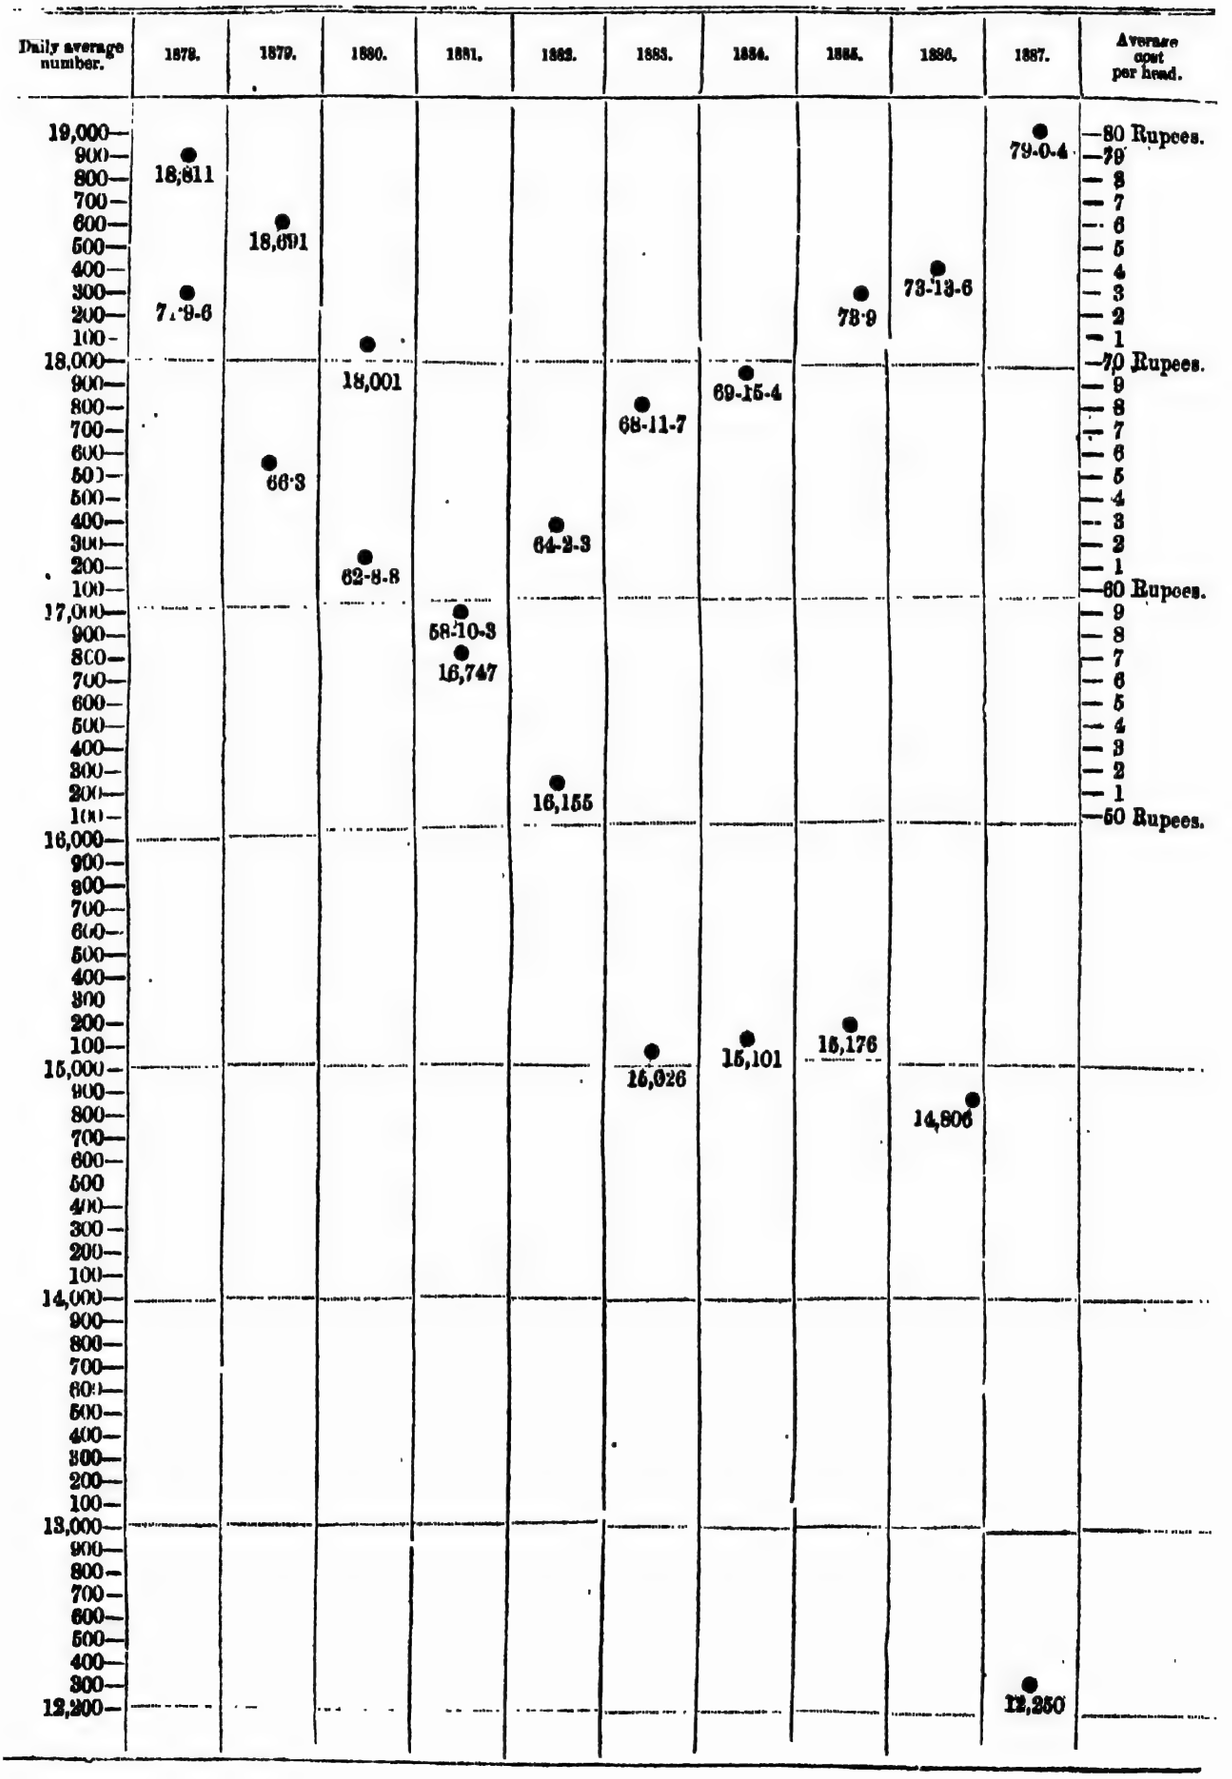
15. The number of offences by convicts fell to 35,824 from 40,512 in 1886. The percentage of offences to the daily average population rose to 328·4 from 299·9 in 1886. On the other hand, only 59·8 of the whole number of individual prisoners committed offences as against 65·5 the year before. As the Lieutenant-Governor lately addressed the Government of India on this subject, it is unnecessary here to deal at length with the subject of the recording of jail offences. The number of serious offences keeps extremely low. There were only 44 punishments by Criminal Courts against 85 in 1884, 71 in 1885, and 44 in 1886. The number of corporal punishments is a third less than in 1886, namely, 266 against 396, another indication of the small number of serious offences. In 21 cases only were less than 10 stripes given and in 42 cases between 10 and 15. During the last two quarters of the year there was no case in which less than 10 stripes were given. The six cases in which illness is reported to have followed after corporal punishment were all cases of ulcers caused by whipping. Reduced diet was only given in 820 cases against 4,495 in 1884, 2,958 in 1885, and 1,514 in 1886. Fetters were imposed in 11,640 cases as a punishment. In 10,232 cases the prisoners had them on for less than a month. Only 119 men were kept in fetters for safe custody—a very small number, considering that there were 284 Burmese prisoners in the Bengal jails.

16. Of the whole male jail population, only 4·34 per cent. were employed as convict officers, against 6·89 in 1886. This large reduction is due to the fact that convict warders, who take the place of paid warders, are not shown this year in Statement VIII, and to the large number released on account of the Jubilee, whom it was impossible to replace from those left in jail. As convict officers are not to be appointed in intermediate jails, the number for future years will be low though, as the Government of India pointed out in its review of the Administration Reports of the Jails of the several provinces of British India for 1886, they cannot be dispensed with altogether. The number of convict officers punished was 1,368 as against 1,868 in 1886. This shows that they worked well on the whole, as 1,543 convict officers were employed during the year. It requires constant warnings and corrections to make them efficient disciplinarians, and it is not found in practice in Bengal that minor corrections, if awarded at the special parades of convict officers, lower their position in the eyes of the prisoners.

17. The new mark rules were in force throughout the year, but the statistics are vitiated by the large number of convicts on the mark system

released at the Jubilee. The Inspector-General's opinion is that the new system as now worked is a complete success.

18. *Expenditure.*—The gross expenditure for all classes of jails fell from Rs. 10,93,361 to Rs. 9,68,033, the lowest figure ever reached. The decrease is spread over all items, excepting Medical Stores, which shows an increase of Rs. 607. Owing to the fall in daily population from 14,806 to 12,250, the cost per prisoner has risen from Rs. 73-13-6 to Rs. 79-0-4. The following diagram shows the fluctuation in the daily average number of prisoners and the average cost of each prisoner during the last 10 years:—



The cost per head fell in 1881, owing to a marked decrease in the price of rice, but since 1882 it has continuously risen, while the average number confined has simultaneously greatly diminished. This is a necessary result of the fact that the scales of establishments were adapted to a jail population of 20,000. The Inspector-General's scheme, by which 14 district jails were reduced to the intermediate grade, will result in a large saving this year, and if the jail population does not increase, further reductions will be possible.

19. The expenditure in Central and District Jails shows a decrease under every head, and a total of Rs. 8,12,576 against Rs. 9,39,472 last year. The reduction in the daily average population, however, has raised the cost per prisoner from Rs. 66-9-11 to Rs. 70-12-3. There is a decided saving in all items of expenditure which are in the power of Superintendents to control. Thus, allowing for the smaller daily average number of prisoners, there has been a saving of Rs. 38,219 under the head of diet, or, in other words, the average annual expenditure for diet per prisoner has fallen from Rs. 22-15-4 to Rs. 20-4; while the annual cost of clothing a prisoner has fallen to Rs. 3-14-6 from Rs. 4-14-3 in 1885 and Rs. 4-4-10 in 1886. Taking together the heads diet, hospital charges, and clothing, the average annual expenditure per prisoner has fallen from Rs. 30-4-6 in 1886 to Rs. 27-4-3 in 1887.

20. These economies have been effected by the lower prices paid for articles of food, especially rice and wheat, and economy in management. The average price of rice per maund was Rs. 1-12-8 against Rs. 2-1-8 in 1886. Wheat in like manner fell from Rs. 3-15-8 per maund to Rs. 3-5-4. These are below the market rates, and have been got by such economical measures as storing grain at the cheapest season, husking rice and dall, buying cattle and goats and having the meat prepared on the jail premises. The following jails showed the most remarkable reductions in average diet expenditure:—

	1887.	1886.
	Rs. A. P.	Rs. A. P.
Bogra	13 15 9	18 9 1
Burdwan	18 14 8	23 11 8
Mozufferpore	18 4 9	23 1 9
Furreedpore	17 6 4	23 2 2
Dacca	22 11 6	29 7 0
Monghyr	13 10 6	20 1 4
Hazaribagh	17 2 7	24 10 9

The extraordinary reduction in Monghyr is due to "(1) an improvement in the method of cooking of Indian-corn, which made it possible to give this cheap grain all the year round; (2) by the growing of 47 maunds of Indian-corn on jail land; (3) purchase of paddy at the cheap season and husking it in the jail, which resulted in a saving of 9 annas a maund, as compared with bazar rates for rice; and (4) purchase of cereals in the interior of the district." These results are highly creditable to the jailor, who is reported to be most careful as regards the health of the prisoners. The least satisfactory results are given by Nuddea, Gya, and Shahabad. In the first named jail, the average expenditure on diet rose from Rs. 23-3-9 in 1886 to Rs. 23-4-8. In Gya the increase was from Rs. 23-9 to Rs. 23-10-7. In Shahabad the increase was from Rs. 18-8-8 to Rs. 19-2-2. The Inspector-General is unable to supply figures showing the amount of cereals produced from jail gardens and used for rations, as required in the Government of India's Resolution on the Jail Report for 1886. Superintendents have been directed to keep careful accounts for the current year. All the vegetables required for jail use were grown in the jails, except in the Khoolna Jail, where the garden was taken up for building purposes. The expenditure on bazar vegetables was only Rs. 17 against Rs. 173 in 1886 and Rs. 643 in 1885.

The following table gives very interesting results:—

	Number of deaths per mille in 1887.	Number of deaths per mille in 1886.
Jails where the cost of dieting decreased by Rs. 2 or more a head in 1887 as compared with 1886 ...	31·27	37·16
Jails where the cost of dieting decreased by less than Rs. 2 a head in 1887 as compared with 1886 ...	37·93	39·78
Jails where the cost of dieting increased in 1887 as compared with 1886	36·30	39·75

These figures show that economy in dieting is not necessarily accompanied by any increase in sickness and mortality.

21. The total expenditure on establishment fell from Rs. 4,07,898 in 1886 to Rs. 4,00,611 in 1887, owing to the abolition of the warder reserve guard of the jails which have since been reduced to the status of intermediate jails. Hospital charges fell to Rs. 35,750 from Rs. 42,704 in 1886, while at the same time the average cost per head of sick shows a rise from Rs. 67-5-1 to Rs. 68-3-11. The average expenditure on clothing fell to Rs. 3-14-6 from Rs. 4-4-10. Dinagepore, Nuddea, Burdwan, Furreedpore, Mymensingh, Lohardugga and Singbhoom were the most expensive, the average expenditure varying from Rs. 8-4-8 at Dinagepore to Rs. 5-7-8 at Singbhoom. The Superintendents of these jails will be asked to exercise more control over this item of expenditure. Under contingencies there was a saving of Rs. 5,820 as compared with last year. The charges under the head of diet of defendants (which includes railway fare and subsistence allowance given to released prisoners) and transfer charges show an increase in consequence of the large number of prisoners released on the Jubilee day, and frequent transfer from district to central jails owing to the demand in central jails for prisoners. On petty constructions and repairs the expenditure fell from Rs. 22,831 to Rs. 22,543.

22. *Employment of prisoners and manufactures.*—The total average number of prisoners sentenced to labour fell from 13,339·53 in 1886 to 10,698·30 in 1887. The ratio per cent. of the daily average sick, 4·9, was lower than in any year since 1880, excepting 1886, when it was 4·8. The average number employed under all heads of prison service fell from 4,078·01 to 2,993·93. The number employed on manufactures was 4,925·29 against 5,971·72 in 1886. The proportion per cent. of convicts employed on manufactures to total number sentenced to labour was 46·03. The total profits on the year's workings came to Rs. 2,42,741, or an average profit of Rs. 22-11 per head sentenced to labour. The corresponding figures for 1886 were Rs. 3,10,099 and Rs. 23-4. The falling off is fully accounted for by the Jubilee remissions. In the Presidency Central Jail alone the profits fell from Rs. 91,557 in 1886 to Rs. 69,591-12, or an average of Rs. 61-6 per prisoner sentenced to labour against the previous year's average of Rs. 75-13. The lower earnings in this case were entirely due to the loss of skilled labour by the Jubilee remissions; this cause affected more or less the working throughout the Department.

The average earnings of each prisoner in central jails are shown in the following table:—

	Average earning per prisoner, 1887.	Average earning per prisoner, 1886.
	Rs.	Rs.
Presidency Central Jail ...	58·3	72 0
Alipore „ ...	42·7	35·4
Buxar „ ...	40 2	47·6
Midnapore „ ...	30·8	18 4
Rajshahye „ ...	21·2	24·6
Dacca „ ...	3·0	2·4

The Marine, Telegraph, and Army Clothing Departments continued to indent on the Alipore Central Jail, and it supplied opium chest-covers to the value of Rs. 74,134 to the agencies of Benares and Behar. In Buxar the tent industry is rapidly extending. In Rajshahye the earnings were reduced by Rs. 4,877-9 owing to the settlement of a claim against the jail in respect of the refraction of the seed supplied in 1886-87. In Dacca Central Jail only 27·22 per cent. of the prisoners sentenced to labour were employed on manufactures—a lower figure than in any other Central Jail. The average profits, Rs. 3-3 per head, though very low, are higher than in any previous year since 1881, excepting 1884 and 1885. Till towards the end of 1884 most of the labourers were employed by the Public Works Department, and the efforts to develop a staple industry have not hitherto been very successful. A Commissariat order for *durrees* has been obtained by the Jail. Special attention will doubtless be given by Dr. Lethbridge to this matter. The Bhagulpore Central Jail made a loss of Rs. 15,055 on its manufacturing operations. It lost in 1885 the Army contracts for woollen goods. The Inspector-General of Jails made an enquiry on the spot, and he is satisfied that all that is possible is being done to work the mill profitably. It is hoped that the Ordnance Department will be able to help with small orders, which will give a small profit until it again receives a portion of the Army contracts. Darjeeling again heads the list of district jails with an average earning of Rs. 87-8 as compared with Rs. 79-15, the figure for last year. The stock of manufactured articles is still somewhat large, but it is satisfactory to note that it has steadily diminished from Rs. 3,41,100 at

the close of 1884 to Rs. 2,76,416 at the close of 1887. The outstandings at the end of the year were very large, and it is unsatisfactory that they are showing a tendency to increase.

23. *Subsidiary Jails.*—A subsidiary jail was opened during the year at Thakurgaon in the Dinagepore district, bringing the total number up to 85. The average number of inspections by Superintendents was 70 and in 8 cases only were fewer inspections made. Atia, Kishoregunge, Kissengunge, Serajgunge, Arrareah and Brahmanbariah were overcrowded. The special report promised by the Inspector-General, after having the capacity of the wards and enclosures re-measured, is awaited. The condition of warder guards attached to subsidiary jails continues to improve. There were only 17 escapes from subsidiary jails, the lowest number on record during the last 10 years. Of those who escaped, 7 were convicts and 10 under-trial prisoners. At Moonshigunge a convict escaped who had, by the order of the Deputy Superintendent, been taken out of the subsidiary jail, contrary to rules, to work in his dwelling-house. The Deputy Superintendent (a Civil Hospital Assistant) has been fined one month's pay, removed from the Jail Department, and transferred. The average detention of convicts rose to 8·05 days, the highest figure since 1880. At Palamow convicts sentenced to three months and under are detained in the subsidiary jail. The Inspector-General's proposal to establish an intermediate jail there is under the consideration of Government. Convicts were detained in the Bhola, Arrareah, Atia and Kishoregunge subsidiary jails owing to their being employed in building the enclosure walls under the Public Works Department. The average cost of each prisoner fell from Rs. 189-10-2 to Rs. 178-1-8. The average number of prisoners, however, rose from 271·41 in 1886 to 310·04 in 1887; so that the total expenditure increased from Rs. 1,33,648 to Rs. 1,36,854. This includes an increase of Rs. 1,805 in the amount spent by the Public Works Department. The average detention of under-trial prisoners was 13·48 days. In Jamui, Fenny, Nowgong, Satkhira and Oolooberiah the detention of under-trial prisoners exceeded 20·50 days. This matter will be dealt with in the Judicial Department.

24 *Vital Statistics.*—There was ample room during the past year in the Bengal jails for the convict population. In a few jails the number of under-trial prisoners exceeded the capacity of the under-trial wards, but in those cases the excess number was invariably removed to empty convict wards. The filtered water of the Bhagulpore water-works was introduced into the Bhagulpore Central Jail in August 1887. The health of the prisoners in the Midnapore Central Jail has much improved since river water has been used all the year round for drinking purposes. Filtered water from the Calcutta supply will shortly be introduced into the Presidency Jail The rules regulating labour and the weight test have been strictly carried out. The dry-earth system is in force in every jail, and Dr. Warden, by an examination of the soils from different parts of the Presidency Jail garden, has shown that the growing of a rapid succession of crops completely removes all trace of chemical products likely to prove dangerous to health.

25. The sickness and mortality of convicts and under-trial prisoners in all classes of jails for the last ten years is compared in the following statement:—

Years.	Daily average number of prisoners.	Daily average sick.	Ratio per mille of daily average sick.	Number of Deaths.			Death-rates per mille of average strength.

The death-rate from all causes is the smallest on record, while the death-rate from cholera is lower than in any year since 1880. Khoolna,

Chumparun and Maldah show the largest proportion of admissions into hospital per mille of average strength. Khoolna is practically a hospital, only the sick and feeble being retained there, while healthy prisoners are passed on to Jessore. The Chumparun Jail is said to be on an unhealthy site; the warders and jail subordinates suffered severely. That the mortality did not exceed 33·5 per mille is to Dr. Bovill's credit. All the drinking and cooking water is carted from the river, six and a half miles away. In Maldah, also, there was much malarious fever, and the warder guard suffered as well as the prisoners, two of them dying. In Lohardugga there were 11 deaths among convicts, giving an annual death-rate of 98·8 per mille. It is reported by the Medical Officer that fully 45 per cent. of those admitted during 1887 were in bad health, and all more or less showed signs of scurvy. None of the prisoners who had passed any length of time in jail were attacked with it.

The following table gives the rates of admissions to hospital and deaths per mille from dysentery and diarrhœa for the years 1883 to 1887:—

	Rate of admission per mille.	Rate of death per mille.
1883	499·5	21·8
1884	515·5	19·7
1885	564·3	23·1
1886	444·4	14 1
1887	429·3	12 6

These are diseases considered to be preventible, and the table shows that they were combated with increased success in 1887. The number of deaths from anæmia and general debility show a remarkable falling off; and as the number of admissions into hospital under this head has not diminished proportionately, there appears to be no doubt that this is due, as suggested by the Inspector-General, to the working of the weight test and the stringent rules for the segregation and treatment of all these cases in their earliest stages. The following table gives figures from 1883:—

	Admissions into hospital.	Deaths.
1883	798	62
1884	693	70
1885	694	74
1886	565	47
1887	559	24

The number of admissions and deaths from respiratory diseases diminished. Cerebro-spinal fever continued in the Alipore Jail, notwithstanding that all the recommendations of the Medical Committee on the subject were carried out. There was no overcrowding last year, and arrangements were made by which better ventilation was provided in the wards and worksheds. The disease appears to be hardly amenable to treatment. There were 13 cases and 8 deaths in 1887 against 18 cases and 10 deaths in 1886. There were only 18 deaths from cholera, the largest number occurring at Rungpore Jail, at a time when it was very prevalent in the district.

26. The total number of deaths among convicts was 363, or 33·2 per mille, against 38·2 per mille in 1886. Of this number, 354 died in jails, of whom only 95, or 26·83 per cent., were received in good health, 148, or 41·81, in indifferent health, and 111, or 31·36, in bad health. 179 men died within six months of their admission to jail. The following are some of the precautions taken in regard to prisoners admitted into jail in indifferent health. Special gangs are formed, watched by all the jail authorities; tonics are administered; very light work, if any, is given; there is a special diet and mid-day rest of two hours; oil is also allowed to anoint their bodies. The following statement shows the extent to which prisoners discharged from jails in 1887 improved in health during their residence in jail:—

	1				2

Ratio per cent. to total number discharged from the jail ...	68·97	23·86	7·17	100·00	76·23	19·18	4·59	100·00

27. The death-rate for 1887 shown in the report has to some extent been affected by the Jubilee remissions. During January, September, October, November and December 1887, the average convict jail population was 11,711, and there were 209 deaths, giving an annual death-rate per mille of 42·8. The average convict jail population during the other seven months of the year came to 9,843, and there were 145 deaths, giving an annual death-rate per mille of 25·2. The death-rate, however, is very satisfactory compared with previous years. This is in some measure attributable to the fact that fever has not of late been so prevalent in a very fatal form as was the case some years ago, and that the general health of the population has appreciably improved. It is still, however, considerably higher than in some other provinces. The report shows clearly the strenuous efforts made to improve the health of the prisoners confined in Bengal Jails, and the marked success which has crowned these measures. Where deaths were due to diseases in any measure preventible and amenable to treatment, either the number of cases diminished, or the virulence of the disease was checked. Thus, though cases of intermittent fever increased, the rate of deaths to admissions into hospital fell from 6·7 in 1886 to 4·7 per cent. Another test of the efforts made and their success is given by the weighment results. In 1886 (the figures for 1887 are not available), of the prisoners discharged from the North-West Provinces Jails, 6,792 neither gained nor lost weight; 21,558 gained and 13,275 lost weight. In 1887 in Bengal 10,120 of those discharged had neither gained nor lost weight; 16,844 had gained and 6,461 had lost weight. In other words, in Bengal, 19·3 per cent. only lost weight against 31·8 per cent. in the North-West. Again, in Bengal, only 2·86 per cent. lost over five pounds, while the percentage in the North-West was 7·21. No measures, however, whatever room there may still be for improvement, appear to be capable of bringing the mortality of the Bengal Jails down to the standard of the North-West. While in Bengal Jails in 1887 no less than 54 deaths out of 399 were due to fever, and in 1886, 92 deaths out of 543; in the North-West Jails in 1886, only 32 deaths out of 463 were due to that cause, one proof among others that, unhealthy as parts of the North-West Provinces may be, the proportion of the population with constitutions broken down by repeated attacks of malarious fever is much smaller than in Bengal. Great credit is due to Dr. Lethbridge for what he has already done, and no doubt even better results will be obtained in the future, as the Superintendents of Jails learn thoroughly to make use of all the precautions prescribed by him in order that illness may be discovered and combated on its first showing itself.

28. *Inspection.*—Dr. Lethbridge visited 36 central and district jails; also 8 subsidiary jails. The official visitors continued to visit the jails regularly. A number of non-officials have lately been added to the list of visitors.

29. The Lieutenant-Governor is glad to observe that the Inspector-General is able to report favourably on the work of almost all his officers. His special commendation of certain officers will be noted in the Appointment Department Dr. Lethbridge has again earned the thanks of Government for the ability and good judgment he has shown in the administration of a difficult and important department.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Chief Secretary to the Govt. of Bengal.

REPORT ON THE WORKING OF THE LICENSED WAREHOUSE AND FIRE-BRIGADE ACT, 1883, IN THE TOWN OF CALCUTTA DURING THE YEAR 1887-88.

The 25th June 1888.—The following report is published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

No. 19, dated Calcutta, the 21st June 1888.

From—The Hon'ble SIR HENRY HARRISON, KT., Chairman of the Corporation of the Town of Calcutta,
To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honor to submit the following report, under section 30 of Act IV (B.C.) of 1883, of the jute screw and warehouses in the Town of Calcutta for the year ended 31st March 1888.

2. At the close of last year there were 69 sanctioned warehouses on the register within the limits of the Town. Four new licenses were issued during the year. These make up the total number of warehouses to 73. Of these, the licenses of three warehouses were cancelled during the year for default of payment of license fee, &c.; thus reducing the number at the end of the year to 70, of which a complete list, arranged according to the Acts under which they were originally licensed, is appended to this report.

3. Five applications were received during the year for licensing existing godowns for storage of jute. Of these, two have been sanctioned and three are under consideration.

4. Of the two applications which were mentioned in the last year's report as under consideration, the license for No. 135, Durmahatta Street, was sanctioned, and the application for No. 18-5, Hurro Chunder Mullick's Street, was refused by the Commissioners. The license for No. 58, Nimtollah Ghât Street, has been taken this year under sanction granted in 1886-87.

5. The total of license fees realised during the year from the 70 warehouses mentioned above amounted to Rs. 21,450, or Rs. 200 in excess of last year.

6. No case of fire in any jute godown occurred during the year under report. There was only one prosecution at the Police. The licensee of No. 14, Hurro Chunder Mullick's Street, was prosecuted for a breach of one of the conditions of his license and fined Rs. 25 on the 3rd April 1888.

7. The annexed statement will show the receipts and disbursements of Jute Warehouse Fund during 1887-88.

	BURDWAN DIVN.		
1	Burdwan June 23, '88	Nil	Weather—hazy, though cloudless; hot, with strong south wind. Jute and early rice seedlings withering. Later sowings stopped. Common rice still 22 seers per rupee.
	Culna ...	Nil	
	Cutwa ...	Nil	
	Raneegunge ...	0·06	
2	Bankoora „ 23, '88	.....	Weather—sultry. The rainfall of last evening (22nd) has cooled the weather, and may save the rice seedlings that were dying for want of rain. More rain is wanted; the sky is overcast and promises a heavy shower. No appreciable change in the rice market.
3	Birbhum „ 23, '88	0·84	Weather very hot till 21st; now cloudy. Outturn of mango good. Rain urgently wanted for paddy seedlings and sugarcane, both of which are withering. Transplantation has not been possible.
	Rampur Haut ...	0·24	
4	Midnapur „ 23, '88	Nil	Weather—very slightly cooler towards end of week; wind gone round to south. Rain wanted for seedlings, which are being dried up. Little water in canal for irrigation.
5	Hugli „ 23, '88	0·10	Weather—abnormally hot. The intense heat of the past week has damaged rice seedlings, jute, sugarcane, and early rice. Rain is urgently wanted.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the results during the same period for the last ten years. The *humidity* of the atmosphere is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers of rain are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past 12 years. The number of stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

* Mean of 6 days.

for the week ending Friday, the 22nd of June 1888.

CALCUTTA, *the 26th June* 1888.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 22ND OF JUNE 1888.

THE general meteorological conditions which had obtained over the province during the previous week have continued throughout the present week. Temperature has been excessive, pressure has been unusually low, humidity has been generally high, while except in North Bengal and Assam heavy rainfall has been almost absent, though a few light showers have been reported in all divisions except South Behar and Chutia Nagpur. The changes of meteorological conditions from day to day have been small, and have in no way altered the general character of the weather; and up to the close of the week the monsoon current from the Bay of Bengal had not found its way over Bengal, but it was still being deflected in an easterly direction and was giving heavy rain to Assam and Burma. The wind systems blowing in Bengal were practically unaltered throughout the week. Strong southerly winds were blowing at the southern stations, south-easterly winds in East Bengal, easterly and north-easterly winds in Assam, North Bengal, and North Behar; while westerly and even north-westerly winds have been blowing in West Behar and Chutia Nagpur; and finally, south-westerly winds have been blowing in Orissa and at the neighbouring stations of South-West Bengal This distribution has been practically the same as that which obtains during a great part of the hot season. At the head of the Bay winds have been strong, but elsewhere they have only been of moderate velocity.

A remarkable feature during the past one or two months has been the persistence of easterly winds at Akyab, wind frequently varying from east-south-east to north-east, and this would almost appear to show indraught towards the sea area off the Arakan and Pegu coasts. It may also possibly indicate the existence of a persistent feeble area of low pressure over this part of the Bay, which may be causing the monsoon to be deflected towards the Burma coast and the eastern districts generally, and which may also be possibly causing heavy rainfall in the Bay. The persistence with which heavy rain has been received in Burma during the week, while almost the whole of Bengal has been practically rainless, is shown in the following small table :—

* Telegrams not received.

Thus moderate to heavy rain has been received at almost every station in Burma from which reports are received on every day of the week, and at some stations between eleven and twelve inches has been received in this period.

Pressure.—The general variations of pressure throughout the week have been of the ordinary oscillatory nature, and for the whole week pressure has been below the normal. Taking into consideration only those stations from which reports have been received for a number of years, and which therefore yield reliable averages, pressure in Bengal has been below the normal by 0·06 inch In Assam the defect has been almost similar, and it equals 0·061 inch. The general defect has been also fairly equally distributed, though the defect has been absolutely largest in South-West Bengal and smallest in Chutia Nagpur.

Temperature.—The most prominent feature of the whole week has undoubtedly been the excessive and anomalous record of temperature. In Chutia Nagpur the average temperature for the week has been no less than 13·2° in excess of the normal temperature as derived from the records of former years, while in South Behar the excess has equalled 10°. In South-West Bengal this excess has been 7·7°, and in Orissa 6·2°. North Behar shows an excess of 4 9°, while in North and East Bengal the excess has been from 2·5° to 3·7°. In Assam, on the other hand, temperature has been practically normal; that is to say, the excess temperatures have been confined mainly to the western and south-western districts. Extremely high maximum temperatures have also been generally recorded throughout the week at the western stations, and on most days several stations have recorded temperatures of 105° and upwards. The highest temperature actually recorded during the week was 113·6° at Gya. It must also be remembered that these excessive temperatures have been accompanied by decidedly high humidities at all stations except those in the extreme west of the province.

Rainfall.—The only rainfall of importance during the week in the province has been recorded in North Bengal, and this division has received an average of 2·33 inches. Though this fall is important, it is really only half as large as the normal fall for the period. The next largest fall is of half an inch in East Bengal, or about a tenth of the usual fall. Orissa, South-West Bengal and North Behar have received falls which vary from a little more than one-tenth up to about three-tenths of an inch, and the falls are generally about a tenth of the normal fall. In South Behar and Chutia Nagpur absolutely no rain has fallen during the week. In Assam the following amounts have been received:—Silchar 8·24 inches, Dhubri 7·96 inches, and Sibsagar 2 22 inches.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 22nd of June 1888 :—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

THE table appended to this memorandum shows—

1. That during the month of April 1888 the deaths of 131,952 persons were recorded in the districts in Bengal among a population of 66,163,884, yielding a death-rate of 23·88 per 1,000 per annum against 21 per 1,000 in the preceding month and 22·80 per 1,000 in the corresponding month of the past year, indicating, as compared with both the periods, a fair advance in the number of deaths recorded.

2. That the highest casualty-rates were returned from the undermentioned districts:—

Districts.	Ratio per *mille.*	*Districts.*	Ratio per *mille.*
Darjiling	44·88	Manbhum	29·88
Julpaiguri	41·28	Bogra	29·40

Hazaribagh	30·60	Hughli	25·56
24-Pergunnahs	30·48	Midnapore	25·20

3. That in comparison with the casualties of the corresponding month of the past year, the mortality from fever had increased to a noticeable extent, the death-rate from injury was stationary, and there were no noticeable differences in fatal results from the other diseases—*vide* figures given below:—

OFFICE OF SANITARY COMMISSIONER FOR BENGAL,
The 23rd June 1888.

R. LIDDERDALE, M.D., *Deputy Surgeon-General,*
Sanitary Commissioner for Bengal.

MEMORANDUM.

FROM the annexed table, exhibiting the vital statistics of the principal Municipalities in Bengal for the week ending 9th June 1888, it appears—

1. That the birth-rate in these Municipalities amounted to 18·6 per 1,000 of population as opposed to 15·8 per 1,000 during the preceding week ending 2nd June, and the death-rate to 20· against very nearly the same proportion, viz., 19·6 per 1,000, indicating a considerable improvement in the registration of the former events.

2. That the following Municipalities returned the highest proportions of births and deaths :—

Births.	Ratio per *mille.*	*Deaths.*	Ratio per *mille.*
Burdwan	79 3	Serampore	42·2
Darjiling	45 6	Gya	32·8
Monghyr	33·1	Beauleah	31·5
Bhagulpore	30·8		
Naraingani	29·0		

3. That the mortality from the specific death-causes stood as follows, in comparison with the similar information for the preceding week :—

	Ratio per *mille* during the weeks ending—	
	9th June 1888.	2nd June 1888.
Cholera	1·8	3·0
Small-pox	·1	·1
Fever	8·4	7·9
Bowel-complaints	2·4	2·9
Injury	·6	·4
Other causes	6·7	5·3

The only noticeable point apparent from the above figures is that there was a decrease of fatal results from cholera, with an increase in that from the maladies coming under the head of "Other causes."

4. That the death-rates from cholera and "Other causes" were greatest in the undermentioned Municipalities, the rest of the diseases exhibiting no special local severity :—

Cholera.	Ratio per *mille.*	*Other causes.*	Ratio per *mille.*
Chittagong	11·7	Serampore	21·6
Patna	4·6	Mozufferpore	18·2
Howrah	2·8	Beauleah	13·1
Gya	2·7	Dacca	13·0
Suburbs of Calcutta	2·3		

5. That the mortality according to *Sex*, *Class* and *Age* stood as shown below :—

According to Sex.	Ratio per *mille.*	*According to Class.*	Ratio per *mille.*	*According to Age.*	Ratio per *mille.*
Males	19·5	Christians	13·0	Under 1 year ...	197·2
